# ADOPTED CAPITAL IMPROVEMENT PLAN

City Manager's Message

FISCAL YEARS 2017/18 & 2018/19

**To: Honorable Mayor, Mayor Pro Tem, Members of the City Council, and Residents of Moreno Valley**

## INTRODUCTION

On behalf of the City of Moreno Valley staff I am proud to transmit the Capital Improvement Plan (CIP). You will find this CIP has been developed with a thoughtful balance between the infrastructure needs of the community and the City's financial capacity. This fiscal stewardship demonstrated by the City Council earned Moreno Valley recognition as the 3<sup>rd</sup> Most Financially Strong City in the nation.

In August 2016, the City Council adopted *Momentum MoVal*, Moreno Valley's first strategic plan. One of the six critical priorities identified by our community stakeholders and adopted by the City Council includes addressing our infrastructure needs:

Infrastructure: Manage and maximize Moreno Valley's public infrastructure to ensure an excellent quality of life, develop and implement innovative, cost effective infrastructure maintenance programs, public facilities management strategies, and capital improvement programming and project delivery.

--*Momentum MoVal*

City staff identifies the community's capital needs for each fiscal year, evaluates anticipated funding availability and presents a proposed CIP for the City Council's consideration and direction to staff. The focus of the CIP is to combine a comprehensive planning document that identifies revenues with the capital projects expenditure budget. The document also augments the existing capital projects budget information and facilitates the long-range capital projects planning process. Capital planning represents an ongoing investment in the City's future to ensure the timely repair and replacement of aging infrastructure, and the implementation of priorities to meet the demands of our community.

The document includes recommended improvements which require Council approval to move forward on capital improvements for the 2017/18 - 2018/19 program years. It also includes expenditure estimates for future projects. The new budget requests for Fiscal Years (FY) 2017/18 - 2018/19 are summarized by category as depicted in Table 1 and Figure 1:

Description	FY 2016/2017 Carryover	FY 2017/2018 New Request	FY 2018/2019 New Request	Total
Streets and Highways	\$8,831,769	\$4,044,001	\$340,000	\$13,215,770
Bridges	\$135,000	\$300,000	\$490,000	\$925,000
Buildings	\$143,732	\$53,000	\$1,000,000	\$1,196,732
Drainage	\$3,457,259	\$824,500	\$1,640,000	\$5,921,759
Electric Utility	\$6,287,116	\$8,571,238	\$5,000	\$14,863,354
Parks	\$1,396,833	\$195,500	\$105,000	\$1,697,333
Traffic Signals	\$9,441,119	\$579,000	\$30,000	\$10,050,119
Underground Utilities	\$0	\$300,000	\$0	\$300,000
Other	\$55,118	\$0	\$0	\$55,118
<b>Total</b>	<b>\$29,747,946</b>	<b>\$14,867,239</b>	<b>\$3,610,000</b>	<b>\$48,225,185</b>

Table 1

Figure 1

During FY 2016/2017, the City completed 23 capital projects totaling approximately \$11.2 million. The CIP, which covers the years 2017-2022 and beyond, identifies projects required through the build-out of the City, and proposes approximately \$1.42 billion for 382 projects to improve and maintain the City's infrastructure. The CIP includes \$38 million in fully funded projects, \$125 million in partially funded projects, and \$1.26 billion in unfunded projects and unfunded portions of partially funded projects. The FY 2017/18 - 2018/19 CIP includes approximately \$48.2 million in new expenditures and carryover funding from FY 2016/2017. This includes capital projects that are currently in various phases of planning, design, and construction. All projects currently in progress were considered when the recommended funding priorities were established.

This document includes a detailed project sheet for each capital project. The purpose of the detail sheets is to provide a comprehensive view of each project in the CIP, including an extensive project description, justification, expenditure, revenue, and project location map, among other detailed information.

The document will be published every two years to include the completion and addition of new capital projects adopted each fiscal year and in coordination with the City's two-year budget cycle. With each revision, the carryover projects will remain as part of the document from previous years until the project or phase is complete. All new projects not previously on the list are added and all completed projects are moved to a completed project list.

As a component of the City's budget adopted by the City Council, the CIP was presented for approval by the Planning Commission on May 25, 2017 and was found to be in conformance with the City's General Plan.

## **CAPITAL BUDGET OVERVIEW**

The FY 2017/18 – 2018/19 CIP budget includes \$29.7 million in FY 2016/2017 carryover appropriations plus \$18.5 million in new FY 2017/18 - 2018/19 capital requests. Table 2 and Figure 2 provide a summary of appropriations for capital projects by funding source.

**FY 2017/18 - 2018/19 Capital Budget Fund Overview**

Description	FY 2016/2017 Carryover	FY 2017/2018 New Request	FY 2018/2019 New Request	Total
2015 Lease Revenue Bonds (Moreno Valley Utility)	\$860,626	\$0	\$0	\$860,626
Air Quality Management	\$17,899	\$30,000	\$30,000	\$77,899
Capital Projects Grants	\$12,005,079	\$0	\$143,118	\$12,148,197
Capital Projects Reimbursements	\$135,000	\$0	\$0	\$135,000

Traffic Mitigation	\$0	\$75,000	\$0	\$75,000
Transportation Uniform Mitigation Fees (TUMF)	\$800,000	\$2,079,978	\$0	\$2,879,978
<b>Total</b>	<b>\$29,747,946</b>	<b>\$14,867,239</b>	<b>\$3,610,000</b>	<b>\$48,225,185</b>

Table 2

### Capital Budget Fund Overview

Figure 2

## CAPITAL IMPROVEMENT PLAN HIGHLIGHTS

Highlights of the community improvements presented to Council are listed below:

### New Projects

- ❖ The Heacock Street South Extension project will improve Heacock Street from San Michele Road to Harley Knox Boulevard and include the bridge over Perris Valley Storm Drain Lateral B. This project will reduce the traffic on Indian Street and Perris Boulevard. The designation of Heacock Street as a four lane arterial street will accommodate the anticipated traffic volumes at build-out and facilitate development of the adjacent industrial area. The project is part of the *Momentum Moyal* Strategic Plan. The focus of the project for FY 17/18 will be securing needed right of way and completing the engineering design.
- ❖ The carpet in the Conference and Recreation Center Ballroom will be replaced. The carpet is original to the building and approximately 12 years of age. Much of the carpet is worn and stains can no longer be removed. This room is used for many rentals such as weddings, quinceañeras, school graduations, concerts, and government agency meetings, occupying up to a few hundred people at an event.
- ❖ Existing marked crosswalks will be updated at seven locations to provide high-visibility treatments, including markings, signing, and the addition of pedestrian-actuated flashing beacons. The project funding covers all phases of implementation including planning, environmental clearance, design, procurement and installation.

### Projects Previously Approved / In Progress

- ❖ The Juan Bautista de Anza Multi-Use Trail will expand recreational opportunities for Moreno Valley's residents. The City received an Active Transportation Program grant to construct the 1.4 mile long segment of trail from Iris Avenue to El Potrero Park. Construction of the trail will provide improved safety and mobility for trail users. The focus of the project for FY 17/18 - 18/19 will be on environmental studies and reports and preliminary and final engineering design.
- ❖ The Alessandro Boulevard / Elsworth Street Intersection Improvement project will enhance the street profile along Elsworth Street by removing the "dips" through the intersection and reconstructing the pedestrian access ramps to be ADA compliant in accordance with City standards. The project will improve safety, enhance pedestrian mobility, and reduce congestion. Construction is scheduled to begin in summer 2017.

- ❖ Sidewalks are an important component of a walking route to school. Undeveloped segments of curbs, gutters, and sidewalks are a concern for students, parents, schools, and the City. Resources from federal and county grants as well as Community Development Block Grants will fund several projects to construct sidewalk improvements and American with Disabilities Act (ADA) ramp upgrades at various locations throughout the City.
- ❖ Heacock Street Channel Improvements are part of a multi-jurisdictional effort between March Joint Powers Authority, Riverside County Flood Control and Water Conservation District, and the City of Moreno Valley. The project provides improved drainage in the area and reduces flooding potential to approximately 120 properties which have a total value of \$15 million and Heacock roadway and utilities which have a total value of \$20 million. The project will be under construction for approximately one year, beginning in June 2017.
- ❖ Ongoing drainage issues along Hubbard Street have resulted in frequent flooding and property damage. The Hubbard Street Storm Drain will provide necessary drainage improvements and alleviate flooding hazards in the area. To speed delivery of this long-awaited improvement, the City will manage the project with funding provided by the Riverside County Flood Control & Water Conservation District. Completion is targeted for December 2017.
- ❖ The Moreno Townsite Flood Control Project will construct a storm drain and street improvements in the middle of the Moreno Townsite Tract between Redlands Boulevard and Merwin Street. The storm drain will convey storm water run-off to mitigate flooding in the area. Construction of the storm drain is anticipated to start in September 2017.
- ❖ The San Timoteo Foothill Neighborhood Flood Protection Project will construct a storm drain starting from Locust Avenue, to Carrie Lane and Kalmia Avenue, and ending in Pettit Street at Juniper Avenue. The proposed storm drain will mitigate flooding in this area. Construction is anticipated to start in January 2018.
- ❖ The Intelligent Transportation System Deployment Phase 1B project supports active traffic management for the purpose of improving mobility. The project includes the deployment of critical field devices and a supporting communications system as a part of the City's Traffic Management System. The project includes cameras at 32 key intersections and new traffic signal controllers at 45 existing signalized intersections. The project is estimated for completion by June 2018.
- ❖ The Dynamic Traveler Alerts Message Boards project will install three Dynamic Message Signs at key locations on Moreno Valley arterials to direct traffic around incidents both on surface streets and on the freeways, and display other travel-related messages. The project is estimated for completion by June 2018.

- ❖ The South Industrial Planning Area continues to experience growth, fueled by the aggressive planned development of large industrial space. Many of the customers in the area utilize sophisticated automation and critical climate control systems that require a higher than average demand per square foot. As a result, the Kitching Substation, a 115 kV substation and associated circuitry, will provide more capacity and relief for existing interconnects, and allows the utility to more reliably serve existing and future customers in the area. The project is estimated to be substantially complete by July 2017.
- ❖ The Citywide Fiber Optic Communications expansion project has constructed a fiber backbone between City Hall and the Corporate Yard, between the Emergency Operations Center and portions of the Citywide Camera System, and between the City Yard and the Moreno Valley Utility Substation on Moreno Beach. The fiber network also connects to the Transportation Division's fiber. These connections allow high-speed fiber communications to other City facilities for various uses including traffic signal controls, traffic cameras, video cameras, Supervisory Control and Data Acquisition systems, and irrigation control systems. In addition to enhancing system reliability, use of City-owned fiber optic communications reduces costs by removing the need to lease circuits from phone companies. After the improvements scheduled during FY 2017, the system will have redundancy, thus reliability, and may be suitable for use as an additional Economic Development tool.
- ❖ The objective of the Box Springs Communications Site project is to construct a secure site that includes equipment building, tower, backup generator, and improved security. The project site is located on land secured via a long-term lease to reduce costs. City communications equipment will be relocated to the new facility upon completion. Operating costs for the new facility will be lower than current lease outlay resulting in significant cost savings for the City.

## **CONCLUSION**

Moreno Valley is a dynamic city that continues to place high demands for capital improvements. The CIP, a "living document" that serves as a planning guide, can be adjusted as existing projects change and new needs and priorities arise. This comprehensive CIP describes approximately \$1.42 billion in capital projects through the build-out of the City. Staff will continue to pursue funding alternatives and identify priorities for Council consideration in order to deliver projects that meet the needs of the City and the region.

In closing, I would like to express my sincere appreciation to all City Departments for their help in identifying and resolving the various capital budget issues affecting our delivery of services to Moreno Valley residents. I want to personally thank the Public Works Department and Financial & Management Services Department for their combined efforts in producing this year's comprehensive CIP.

CITY OF MORENO VALLEY  
Capital Improvement Plan  
FY 2017-2022 and Beyond

# FISCAL YEARS 2017/18 & 2018/19

# Capital Improvement Plan Overview

## Introduction

The City of Moreno Valley's Capital Improvement Plan (CIP) is an important planning and managing tool for the City's growth and development, as well as a strategy for the maintenance of existing infrastructure. The CIP is a comprehensive, five-year plan for maintaining and enhancing public infrastructure by constructing new facilities and maintaining and repairing current facilities. This strategic document provides a forecast of community infrastructure needs, their estimated costs, and the financial capacity of the City over the five-year period.

The development of the City's Capital Improvement Plan is one of the more complex and multifaceted processes in the City. The CIP contains both a capital budget and a capital program. The capital budget denotes the spending plan for the upcoming year. The capital program provides a plan for capital expenditures that extends five years and beyond the capital budget to build out. As the City's infrastructure conditions and needs change, capital programs and priorities must be adjusted. New construction may be required to accommodate increased demand or replace aging facilities, while existing infrastructure requires periodic rehabilitation, replacement, or other improvements to protect the City's investments. Striking a balance between the needs and interests of the community and the financial capacity of the City is a challenging task.

The CIP development process identifies the City's numerous needs, keeping in mind the limits of each funding source, progress on ongoing CIP projects, and funding commitments made by prior CIPs. Capital projects affecting public health and safety, and/or legal mandates may receive the highest priority. Emphasis is also placed on capital projects maintaining service levels or preventing deterioration of facilities. Priorities are based on economic feasibility, community enhancement and need, infrastructure, safety, and anticipated development trends within the City.

- Essential (Start within 1 year)
- Necessary (Start within 1 to 3 years)
- Desirable (Start within 3 to 5 years)
- Deferrable (Start within 5 to 10 years)

The City funds the construction and maintenance of these facilities using a wide range of resources, including tax revenue, bond proceeds, and fees. The City continues to look for ways to maximize funding for CIP projects by leveraging its funding through federal, state and local grants, and reimbursements.

Capital improvement projects are in conformance with the City of Moreno Valley's General Plan. CIP projects also meet City Council goals by ensuring that needed public facilities, roadway improvements, and other infrastructure improvements are constructed and maintained, by promoting a sense of community pride, and by creating a positive environment for the development of Moreno Valley's future.

## City Council

Dr. Yxstian A. Gutierrez, Mayor  
Victoria Baca, Mayor Pro Tem, District 1  
Jeffrey Giba, Council Member, District 2  
David Marquez, Council Member, District 3  
Ulises Cabrera, Council Member, District 4

## City Council Goals

### **Advocacy**

Develop cooperative intergovernmental relationships and be a forceful advocate of City policies, objectives, and goals to appropriate external governments, agencies and corporations.

### **Revenue Diversification and Preservation**

Develop a variety of City revenue sources and policies to create a stable revenue base and fiscal policies to support essential City services, regardless of economic climate.

### **Public Safety**

Provide a safe and secure environment for people and property in the community, control the number and severity of fire and hazardous material incidents, and provide protection for citizens who live, work and visit the City of Moreno Valley.

### **Public Facilities and Capital Projects**

Ensure that needed public facilities, roadway improvements, and other infrastructure improvements are constructed and maintained.

### **Positive Environment**

Create a positive environment for the development of Moreno Valley's future.

### **Community Image, Neighborhood Pride and Cleanliness**

Promote a sense of community pride and foster an excellent image about our City by developing and executing programs which will result in quality development, enhanced neighborhood preservation efforts, including home rehabilitation and neighborhood restoration.

## **Capital Improvement Projects**

Capital improvements are the construction, upgrading, or replacement of City infrastructure, such as residential and arterial streets, bridges, traffic signals, storm drain systems and drainage channels, parks, and public service providing facilities.

Infrastructure improvements are considered capital improvement projects when the expected life of the asset spans multiple years (in excess of two years) and expenditures are at least \$25,000. These significant non-routine capital expenditures are accounted for as capital projects within the CIP. The CIP is a financially controlled plan which contains projects with

and without identified funding to give a complete picture of Moreno Valley's needs. Equipment, operating, and maintenance costs are identified for inclusion in future operating budgets.

In contrast, routine capital purchases of new vehicles, computer hardware, and other equipment are largely accounted for in special funds, such as the Maintenance & Operations Funds and Technology Services Funds. These assets are capitalized when the initial individual cost is \$5,000 or more, with an estimated useful life greater than two years.

The CIP requires Council approval for the annual expenditures to construct or implement all capital improvements for the year.

## **Budget Process**

The City of Moreno Valley operates on a fiscal year basis, beginning July 1 and ending June 30. The CIP budget is prepared by the Public Works Department / Capital Projects Division under the supervision of the City Manager. The proposed CIP budget is part of the citywide budget, which is transmitted to the City Council and the public in May for review, public input, deliberation and adoption prior to the beginning of each new fiscal year.

The budget process for the City of Moreno Valley generally begins with a kick-off meeting in December of each year. The Capital Projects Division distributes the CIP budget calendar, instructions, and forms to the departments, outlining the goals and directives for development of the upcoming CIP budget.

City departments submit proposals for projects within their designated range of responsibilities. City staff also meets with individual Council Members to identify and discuss each member's priorities and projects of interest. Subsequently, projects for which funding has been identified are categorized and described in the annual CIP. The City Manager's Office and the Financial & Management Services Department review the CIP to ensure the City's priorities are addressed and adequate funds are available to complete projects. The proposed CIP is also presented to the Planning Commission to make a finding that the CIP is in conformance with the City's General Plan prior to submittal to the City Council for adoption. After CIP adoption by the City Council, the individual implementation phases of each project, such as design, land acquisition, and award of construction contracts that exceed \$75,000 for Public Works projects and \$50,000 for non-Public Works projects, still require City Council approval. Amendments to the CIP also require City Council approval.

Although the CIP spans five years, funds for only the first two years are appropriated within the budget. In general, the CIP budget provides funding for infrastructure construction and rehabilitation, while the operating budget and other special funds provide funding for routine infrastructure maintenance. All budget items are presented to the City Council for approval as part of the City's Budget for Fiscal Years 2017/18 - 2018/19.

The City places a high priority on infrastructure construction, rehabilitation, and maintenance efforts to ensure its streets, landscaping, and facilities are built, maintained, and rehabilitated according to best practices and promote environmental sustainability. Emphasizing rehabilitation and effective maintenance practices minimizes deterioration and costly

remediation efforts, thereby extending the useful life of infrastructure improvements and providing long-term savings.

## **Budget Amendments**

Supplemental appropriations requested during the fiscal year, when necessitating the use of reserves/fund balance, require approval by the City Council. Supplemental appropriations requested during the fiscal year with offsetting revenues and budget adjustments between funds and departments are approved by the City Council or City Manager throughout the fiscal year, in line with approved signature authorities.

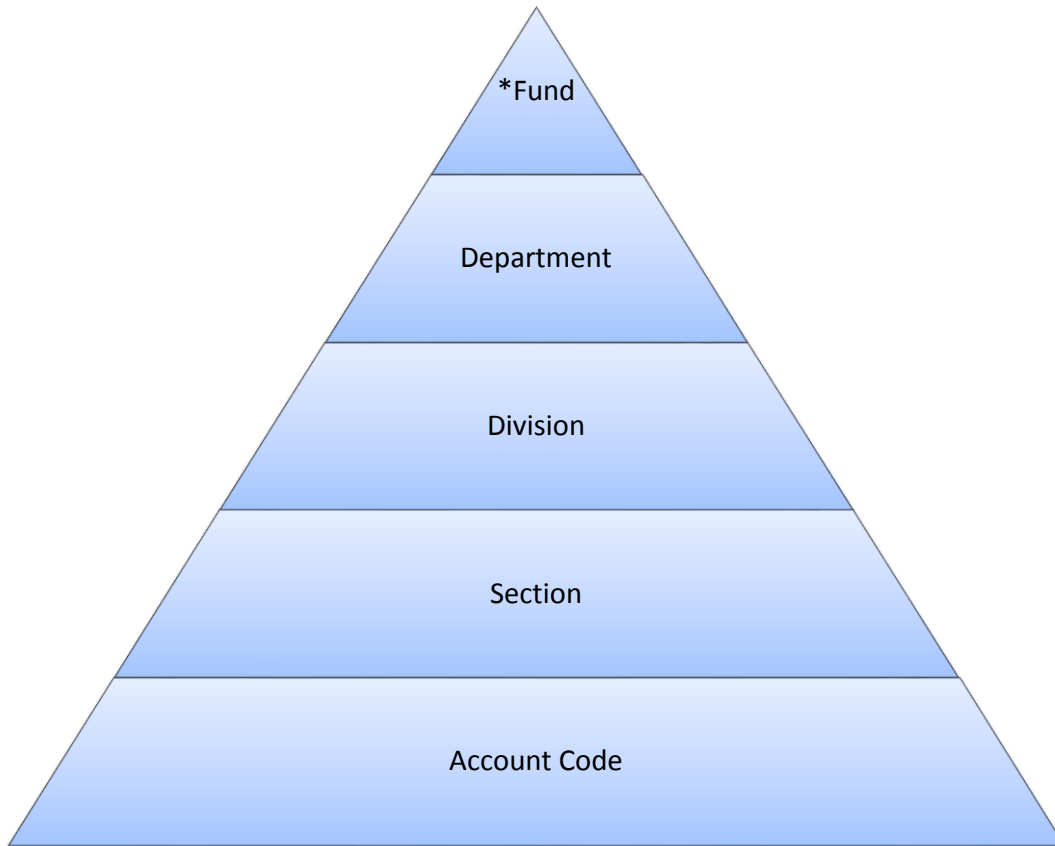

## **Basis of Accounting**

Basis of accounting refers to the timing of revenue and expenditure recognition for budgeting and financial reporting. The City's financial statements and accounting records are maintained in accordance with the recommendations of the Governmental Accounting Standards Board (GASB). Government-wide financial statements are reported using the economic resources measurement focus and accrual basis of accounting, as are the proprietary fund and fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the providers have been met. Budget development and budget adjustments utilize these same revenue and expenditure recognition timing policies and practices. As a general rule, the effect of inter-fund activity has been eliminated from the government-wide financial statements.

A carefully designed system of internal accounting controls is in operation at all times. These controls are designed to provide reasonable, but not absolute, assurances that safeguard assets against loss from unauthorized use or disposition and to ensure the reliability of financial records used in the preparation of financial statements. The concept of reasonable assurance recognizes the cost of a control should not exceed the benefit. The evaluation of costs and benefits likely to be derived require estimates and judgments by management. An independent, certified public accounting firm reviews the City's financial accounting processes, practices, and records annually.

## Financial Structure

The following provides the City of Moreno Valley's Financial Structure.

\*City Council adopts the CIP Budget at the Fund level.

The City of Moreno Valley's financial system is organized around a structure that is commonly found in most public agencies, as described below.

**Fund:** Each fund represents a self-balancing group of accounts and a balance sheet that allows for the proper segregation of the City's financial resources.

For Example, the General Fund accounting structure accumulates and tracks funds collected for the purpose of providing services that fulfill the general government role of the City. These services include essential public safety functions of Police, Fire, and Animal Control, as well as the central administration functions of the City Council, City Manager's Office, City Attorney's office, City Clerk's office, Human Resources Department, and portions of the Financial & Management Services Department.

**Department:** The functions carried out by the City are organized by Department. The leadership and staff assigned to each department are charged with carrying out these assigned functions.

The City's Departments/Offices are listed below:

- City Council's Office
- City Clerk's Office
- City Manager's Office
- City Attorney's Office
- Community Development Department
- Economic Development Department
- Financial & Management Services Department
- Fire Department
- Human Resources Department
- Parks & Community Services Department
- Police Department
- Public Works Department

**Division:** In certain instances, functions carried out by a particular department are numerous and diverse. In these instances, leadership within a department is further organized by divisions as reflected in the City's organization chart.

**Section:** The Section is used within the City's financial system to identify a division or program area within a department. A department can have one or more cost centers assigned to it in order to capture costs for each separate function.

**Account Code:** The basic unit of the City's financial system is the account code. Its purpose is to provide a means of separating each type of cost from another.

The City of Moreno Valley maintains this type of formal structure to maintain accountability over the assets and other financial resources for which it has control.

## **Project Accounting**

Standard accounting processes are designed to monitor the financial progress of organizational elements over defined time periods. CIP project accounting differs in that it frequently crosses organizational boundaries, may last for a few days or weeks or continue for a number of years, during which time budgets may also be revised many times. A project also may be one of a number of projects that make up a larger overall project or program.

Project accounting is the practice of creating financial reports specifically designed to track the financial progress of projects. It is the process of identifying, measuring, recording, and communicating project cost data within the project time frame; not just the fiscal time frame. It also includes data that represents the cost of work to complete the project. Therefore, it is speculative in nature and estimated to a reasonable round number rather than being accurate to the nearest penny.

Project accounting is an essential service for supporting project cost management. It allows the organization to estimate, or budget, the total cost of the project and to track the costs as they occur. Both expenditures and revenues may be created and tracked for specific

projects. Purchase orders, invoices, journals, receipts and payroll expenditures can be associated to a project at time of entry and will update the project financial data at the same time. Each project can be budgeted and reports and inquiries can be generated to quickly see the projects' current status and past history. At the end of the project, the organization can evaluate the financial cost of the project to determine how well the project team stayed within budget and to identify any issues that caused the actual project costs to exceed the budget.

## Project Validation Sets

The following information describes the design of the CIP Project Accounting numbering scheme and level structure.

A project category is assigned to all CIP projects. Project numbers correspond to the CIP category. Streets and Highways, the largest and most visible category, is the first category listed in the CIP. The CIP contains 10 categories. CIP project numbers are comprised of a numerical string. The first 3-digit sequence begins with the number 8.

- 801 - Streets and Highways
- 802 - Bridges
- 803 - Buildings
- 804 - Drainage
- 805 - Electric Utility
- 806 - Landscaping
- 807 - Parks
- 808 - Traffic Signals
- 809 - Underground Utilities
- 810 - Other

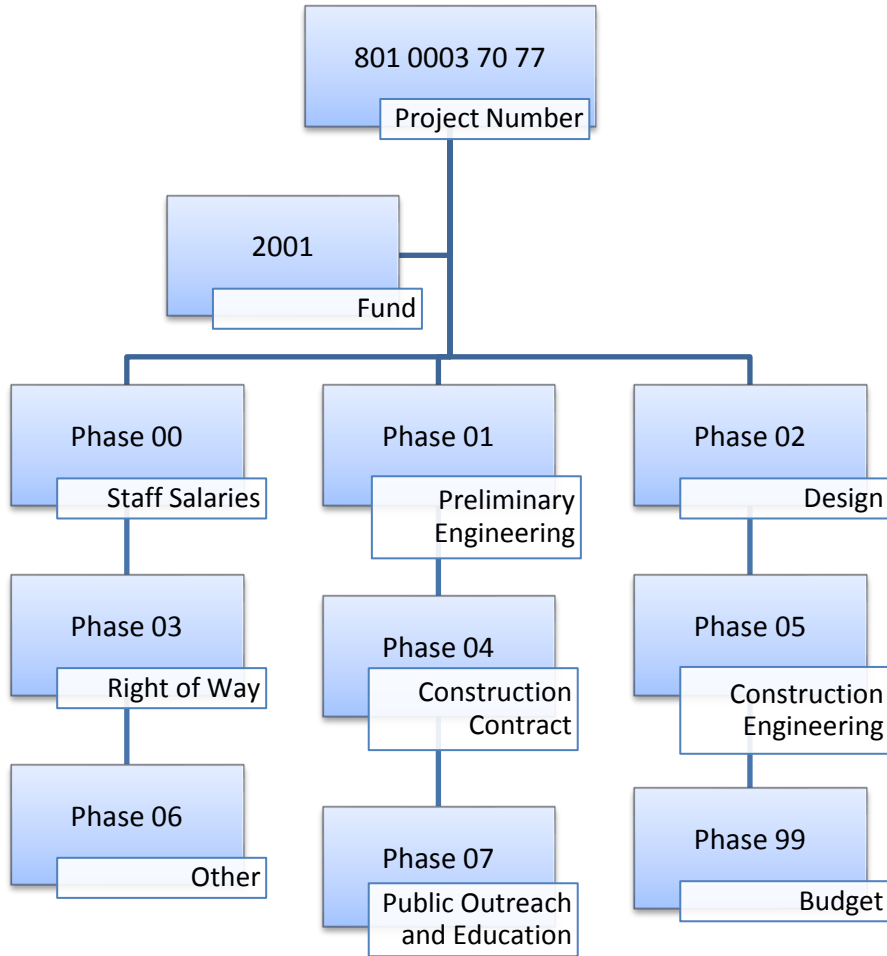

Project Accounting contains three levels for tracking purposes.

**Level One** is a 7 to 11 digit string comprised of the CIP category, a four-digit number specific to the project, the department number, and the division number. (Beginning in FY 2014-2015, the department and division numbers were omitted for all new projects.)

**Level Two** is the four-digit fund number. This level allows for single or multiple funding sources for each project. Reports can be run by funding source across all projects or for specific projects.

**Level Three** is the two-digit phase number. The various phases correspond to the funding phases for state, federal, and local grant awards, allowing for ease in tracking grant expenditures for reimbursement purposes.

The following chart depicts the three levels used for project accounting. All levels roll up to Level One.

Project Number	Fund	Phase
801 0003 70 77	-2001	-05

- 801 Street and Highways Category
- 0003 Project Specific Number (Annual Pavement Resurfacing)
- 70 Department (Public Works)
- 77 Division (Capital Projects)
- 2001 Funding Source (Measure A)
- 05 Construction Engineering (Inspection, Geotechnical, Survey)

## Revenue Sources

Identifying funding is the greatest challenge involved in maintaining and enhancing capital needs. The FY 2017/18 - 2018/19 CIP utilizes a variety of funding sources. Project budgets comprise a combination of grants, long-term debt financing, developer contributions to build specific projects, and pay-as-you-go spending from recurring City revenues. City staff aggressively pursues funding alternatives for projects consistent with infrastructure needs as well as optimizing annual revenue received from local, state, and federal government agencies.

The City faces a number of challenges in funding essential infrastructure. Community needs and desires intensify the demand for City amenities and with it overall construction costs. Although construction activity helps sustain the local economy, the resulting increase in construction costs requires diligent management in planning and delivering infrastructure improvements.

Another challenge Moreno Valley continues to tackle is offsetting the impact of new growth on the City's existing infrastructure. Population growth and private development increase the demand for street and traffic signal construction, new parks, expansion of public buildings, and new electric facilities to reliably serve existing and future customers. This progression results in three related capital issues:

- funding costly capital improvements that accommodate growth
- balancing growth related capital investments with state of good repair funding
- planning for increases to annual maintenance and operations costs associated with newly constructed infrastructure

Aligning the City's capital budget with community needs will continue to be a challenge. However, the City has taken steps to expand funding that demonstrates its commitment to maintaining and enhancing capital needs. Funding for FY 2017/18 - 2018/19 transportation related projects includes over \$12 million in Federal, State, Regional and local grant awards.

Certain revenue sources are restricted to specific kinds of projects (circulation versus non-circulation), geographic areas, or construction types (new construction versus rehabilitation).

## Future Annual Costs

The escalation in construction costs also has a significant impact on the City's CIP, creating major challenges in funding the capital budget. A major impetus of construction cost escalation is the improving bid environment arising from growing local construction demand. The bidding environment becomes increasingly favorable for contractors as the demand for private development and City infrastructure improvements intensifies.

Due to rising construction costs, it is necessary to periodically apply a global percentage increase to unfunded projects based on the Consumer Price Index (CPI) for the Los

Angeles, Riverside, and Orange County areas and Construction Cost Index (CCI), published by Engineering News Record (ENR). The CPI measures changes in the price level of a fixed basket of consumer goods and services purchased by households. Similarly, the CCI measures changes in the price level of a fixed basket of labor and materials costs.

Staff closely monitors inflation indices and uses this information to determine expected capital cost escalation over the five-year CIP. A higher cost escalator will reduce the amount of work that can be done with planned revenues.

The current methodology requires that both the CPI and CCI must exceed 15% before the global percentage increase is applied to the unfunded projects. Between December 2010 and December 2016, the referenced CPI and CCI are hovering in the range of 11.2% to 17.6% increase over the cumulative six year period. Accordingly, this year's unfunded projects do not reflect any global cost adjustment. When an unfunded project becomes partially or fully funded, a cost analysis will be done to reflect the most current cost.

<p><b>Project Title:</b> Alessandro Boulevard / Elsworth Street Intersection Improvements</p> <p><b>Department / Division:</b> Public Works Department / Capital Projects Division</p>	<p><b>Project Status:</b></p> <input type="checkbox"/> New <input checked="" type="checkbox"/> In Progress <input type="checkbox"/> Completed <input type="checkbox"/> Deleted <input type="checkbox"/> On Hold	<p><b>Project Priority in CIP Category:</b></p> <input checked="" type="checkbox"/> Essential (Start within 1 yr) <input type="checkbox"/> Necessary (Start within 1 to 3 yrs) <input type="checkbox"/> Desirable (Start within 3 to 5 yrs) <input type="checkbox"/> Deferrable (Start within 5 to 10 yrs)
<p><b>Project Description:</b>          A safety analysis identified a high rate of collisions and substandard infrastructure at the intersection of Alessandro Boulevard and Elsworth Street. Safety improvements include: modification of the existing traffic signal with improved signal head placement; upgraded vehicle detection; pedestrian countdown timers; Americans with Disabilities Act (ADA) compliant pedestrian push buttons; modification of the drainage infrastructure through the intersection improvement of the street profile and ADA Access ramps; and utility relocation. The project has received a Caltrans Highway Safety Improvement Program (HSIP) grant for up to 90% of the estimated project cost. The City will match 10% of the project cost. Per the requirements of the HSIP grant, the City is required to use its own funds to implement the project and then receive reimbursement progress payments. EMWD is fully funding their waterline relocations, which will be done by the City's contractor. Carryover funds will be needed in FY 18/19 for warranty walk.          Design: Completed          Advertise / Award: January 2017 to March 2017          Construction: May 2017 to December 2017</p>	<p><b>Project Location Map:</b> Council District(s): <input checked="" type="checkbox"/> 1 <input type="checkbox"/> 2 <input type="checkbox"/> 3 <input type="checkbox"/> 4</p>	
<p><b>Justification or Significance of Improvement:</b>          The proposed improvements at the intersection will improve safety, enhance pedestrian mobility, and reduce congestion. Caltrans has provided 90% of the funding.</p>	<p><b>CIP Category:</b></p> <input checked="" type="checkbox"/> Streets and Highways <input type="checkbox"/> Bridges <input type="checkbox"/> Buildings <input type="checkbox"/> Drainage <input type="checkbox"/> Electric Utility <input type="checkbox"/> Parks <input type="checkbox"/> Traffic Signals <input type="checkbox"/> Underground Utilities <input type="checkbox"/> Other

<b>Project Title:</b> Alessandro Boulevard Improvements at Chagall Court and at Graham Street	<b>Project Status:</b> <input type="checkbox"/> New <input checked="" type="checkbox"/> In Progress <input type="checkbox"/> Completed	<b>Project Priority in CIP Category:</b> <input checked="" type="checkbox"/> Essential (Start within 1 yr) <input type="checkbox"/> Necessary (Start within 1 to 3 yrs) <input type="checkbox"/> Desirable (Start within 3 to 5 yrs) <input type="checkbox"/> Deferrable (Start within 5 to 10 yrs)
<b>Department / Division:</b> Public Works Department / Capital Projects Division	<input type="checkbox"/> Deleted <input type="checkbox"/> On Hold	

**Project Description:**  
The intersection of Chagall Court and Alessandro Boulevard is un-signalized and identified with a high rate of collisions. Safety improvements will include connecting two existing raised medians to remove left-turn access. The intersection of Graham Street and Alessandro Boulevard is currently operated with obsolete traffic signal configurations, high rate of collisions due to free right-turn lane, and complicated bicycle and pedestrian access. Proposed safety improvements include: removal of median mounted left-turn indications, closing free right-turn lane, installing advanced dilemma zone detection system, and reconstructing access ramps. The locations were combined into one project due to their proximity so that cost savings can be realized. The project has received a Caltrans Highway Safety Improvement Program (HSIP) Cycle 6 grant for up to 90% of the estimated project cost. The City will match 10% of the estimated project cost.  
Final Design: March 2016 to January 2017  
Receive Caltrans Authorization for Construction: July 2017  
Construction: September 2017 to June 2018

**Justification or Significance of Improvement:**  
The proposed improvements at the intersections will improve safety, enhance bicycle and pedestrian mobility, and reduce collisions.

**Estimated Maintenance Costs:**  
Street maintenance costs over a 20 year period are estimated to average approximately \$12,000 per 13 foot wide lane mile per year. Currently no new funding source has been identified to fund these maintenance costs. Annual average costs associated with traffic signal maintenance are approximately \$3,500 per traffic signal. Although actual maintenance costs may vary, this cost is based on the City's historical maintenance costs for traffic signals.

--	---	--	---

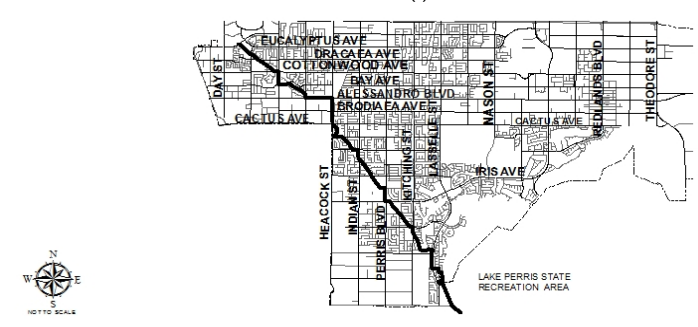

**Project Description:**  
 This project consists of developing the preliminary alignment and concepts to fill in missing trail segments and improve street crossings. The project received federal Congestion, Mitigation, and Air Quality (CMAQ) Improvement Program Funding for preliminary engineering and environmental clearance. The project is being done in conjunction with the Parks & Community Services Department.

CMAQ Funds 80%, Local Funds 20%.

Preliminary Engineering/Environmental: October 2014 to August 2017  
 Design: Subject to available funding

**Justification or Significance of Improvement:**  
 The project will provide a continuous trail linking residential areas to bus stops, employment and commercial centers, and schools, and the Lake Perris State Recreation Area.

**Project Location Map:** Council District(s):  1  2  3  4

**Estimated Maintenance Costs:**  
 Trail maintenance costs average approximately \$4,000 per acre per year based on budget information provided by the Parks Maintenance Division. Actual maintenance costs may vary depending on the size and amenities of the site. Currently no new funding source has been identified to fund costs associated with future replacements needed due to normal use.

<p><b>Project Title:</b> Cactus Avenue Eastbound 3rd Lane Improvements / Veterans Way to Heacock Street</p> <p><b>Department / Division:</b> Public Works Department / Capital Projects Division</p>	<p><b>Project Status:</b></p> <input type="checkbox"/> New <input type="checkbox"/> In Progress <input checked="" type="checkbox"/> Completed <input type="checkbox"/> Deleted <input type="checkbox"/> On Hold	<p><b>Project Priority in CIP Category:</b></p> <input checked="" type="checkbox"/> Essential (Start within 1 yr) <input type="checkbox"/> Necessary (Start within 1 to 3 yrs) <input type="checkbox"/> Desirable (Start within 3 to 5 yrs) <input type="checkbox"/> Deferrable (Start within 5 to 10 yrs)
<p><b>Project Description:</b> The project widened Cactus Avenue from Veterans Way to Heacock Street by extending the third eastbound lane, and modifying traffic signals at Veterans Way, Frederick Street, Joy Street, Graham Street, and Gilbert Street. RCTC funded 65% of the project with \$1,527,500 in Measure A Regional Arterial (MARA) funds.</p> <p>Construction: Completed</p> <p><b>Justification or Significance of Improvement:</b> The project relieved traffic congestion on Cactus Avenue and improved capacity to Heacock Street and replaced the gap segment between Veterans Way and Heacock Street with a 6-lane arterial.</p> <p><b>Estimated Maintenance Costs:</b> Street maintenance costs over a 20 year period are estimated to average approximately \$12,000 per 13 foot wide lane mile per year. Currently no new funding source has been identified to fund these maintenance costs.</p>	<p><b>Project Location Map:</b> Council District(s): <input checked="" type="checkbox"/> 1 <input type="checkbox"/> 2 <input type="checkbox"/> 3 <input type="checkbox"/> 4</p>  <p><b>CIP Category:</b></p> <input checked="" type="checkbox"/> Streets and Highways <input type="checkbox"/> Bridges <input type="checkbox"/> Buildings <input type="checkbox"/> Drainage <input type="checkbox"/> Electric Utility <input type="checkbox"/> Parks <input type="checkbox"/> Traffic Signals <input type="checkbox"/> Underground Utilities <input type="checkbox"/> Other

--	--	--

**Project Description:**  
This project will install missing sidewalks, curbs, gutters, pedestrian access ramps, drainage facilities, street lights, traffic signal pole relocation, radar speed feedback signs, and pavement widening near school sites on Dracaea Avenue, Eucalyptus Avenue, Ironwood Avenue, Sandy Glade Avenue, and Elsworth Street.  
Design: September 2016 to January 2017  
Right of Way: September 2016 to March 2017  
Caltrans Authorization for Construction: April 2017 to June 2017  
Advertise/Award: July 2017 to September 2017  
Construction: October 2017 to January 2018

**Justification or Significance of Improvement:** Sidewalks are an important component of a walking route to school. Missing portions of curbs, gutters, and sidewalks are a concern for students, parents, school, and the City. The situation deteriorates during the rainy season. Because of wet and muddy dirt paths, parents and students walk in the roadway next to motor vehicles. This undesirable condition, in addition to the lack of Americans with Disabilities Act (ADA) compliant pedestrian access ramps and street lights, discourages many parents and students from walking to school.

**Estimated Maintenance Costs:** Sidewalk maintenance costs over a 50 year period are estimated to average approximately \$5,400 per 6 foot wide sidewalk mile per year. Street maintenance costs over a 20 year period are estimated to average approximately \$12,000 per 13 foot wide lane mile per year. Currently no new funding source has been identified to fund these maintenance costs.

--	--	---

**Project Description:**  
The project designed and re-constructed 28 curb ramps at eight intersections located citywide to meet current Americans with Disabilities Act (ADA) standards. Carryover in FY 17/18 is for warranty work.

Design: March 2016 to December 2016  
 Construction: March 2017 to June 2017  
 Close Out: August 2017

**Justification or Significance of Improvement:**  
The project is to design and re-construct curb ramps citywide to meet ADA standards.

**Estimated Maintenance Costs:**  
Sidewalk maintenance costs over a 50 year period are estimated to average approximately \$5,400 per 6 foot wide sidewalk mile per year. Currently no new funding source has been identified to fund these maintenance costs.

<p><b>Project Title:</b> Heacock Street / Perris Valley Storm Drain Lateral A to Cactus Avenue</p> <p><b>Department / Division:</b> Public Works Department / Capital Projects Division</p>	<p><b>Project Status:</b></p> <p><input type="checkbox"/> New      <input type="checkbox"/> Deleted</p> <p><input checked="" type="checkbox"/> In Progress      <input type="checkbox"/> On Hold</p> <p><input type="checkbox"/> Completed</p>	<p><b>Project Priority in CIP Category:</b></p> <p><input checked="" type="checkbox"/> Essential (Start within 1 yr)</p> <p><input type="checkbox"/> Necessary (Start within 1 to 3 yrs)</p> <p><input type="checkbox"/> Desirable (Start within 3 to 5 yrs)</p> <p><input type="checkbox"/> Deferrable (Start within 5 to 10 yrs)</p>
<p><b>Project Description:</b></p> <p>This overall project realigns and widens Heacock Street from Perris Valley Storm Drain (PVSD) Lateral A to Gentian Avenue from two (2) to four (4) lanes. Pavement treatment is proposed from Gentian Avenue to Cactus Avenue as an additive alternate bid pending available funds. A developer has recently completed the widening of Heacock Street from PVSD Lateral A to Iris Avenue.</p> <p>The project consists of the widening and reconstruction of Heacock Street from Iris Avenue to Gentian Avenue. Heacock Street from Iris Avenue to Revere Place is improved by a development project. All of the Right of Way has been dedicated along Heacock Street between Gentian Avenue and Iris Avenue.</p> <p>Design: Completed Construction: March 2017 to October 2017</p> <p><b>Justification or Significance of Improvement:</b> The widening of Heacock Street is needed to accommodate traffic growth resulting from development of the industrial area in the south side of the City.</p> <p><b>Estimated Maintenance Costs:</b> Street maintenance costs over a 20 year period are estimated to average approximately \$12,000 per 13 foot wide lane mile per year. Currently no new funding source has been identified to fund these maintenance costs.</p>	<p><b>Project Location Map:</b> Council District(s): <input type="checkbox"/> 1 <input type="checkbox"/> 2 <input checked="" type="checkbox"/> 3 <input checked="" type="checkbox"/> 4</p>  <p><b>CIP Category:</b></p> <p><input checked="" type="checkbox"/> Streets and Highways      <input type="checkbox"/> Drainage      <input type="checkbox"/> Traffic Signals</p> <p><input type="checkbox"/> Bridges      <input type="checkbox"/> Electric Utility      <input type="checkbox"/> Underground Utilities</p> <p><input type="checkbox"/> Buildings      <input type="checkbox"/> Parks      <input type="checkbox"/> Other</p>

<p><b>Project Description:</b>          This project will construct a portion of the Juan Bautista de Anza Multi-Use Trail between Iris Avenue and El Potrero Park, a length of 1.4 miles. The project is fully funded in the amount of \$1,431,000 by the state's Active Transportation Program (ATP) Cycle 2.</p> <p>Caltrans Authorization for Preliminary Engineering / Environmental: October 2016 to April 2017          Preliminary Engineering / Environmental: April 2017 to February 2018          Final Design and Right of Way: February 2018 to December 2018          Construction: January 2019 to December 2019</p> <p><b>Justification or Significance of Improvement:</b>          The project will expand recreational opportunities for Moreno Valley's constituents.</p> <p><b>Estimated Maintenance Cost:</b>          Trail maintenance costs average approximately \$4,000 per acre per year based on budget information provided by the Parks Maintenance Division. Actual maintenance costs may vary depending on the size and amenities of the site. Currently no new funding source has been identified to fund costs associated with future replacements needed due to normal use.</p>		<p><b>Project Location Map:</b></p> <p align="right">Council District(s): <input type="checkbox"/> 1 <input type="checkbox"/> 2 <input type="checkbox"/> 3 <input checked="" type="checkbox"/> 4</p>  <p><b>CIP Category:</b></p> <input checked="" type="checkbox"/> Streets and Highways <input type="checkbox"/> Bridges <input type="checkbox"/> Buildings <input type="checkbox"/> Drainage <input type="checkbox"/> Electric Utility <input type="checkbox"/> Parks <input type="checkbox"/> Traffic Signals <input type="checkbox"/> Underground Utilities <input type="checkbox"/> Other

Capital Improvement Plan - Project Details  
FY 2017-2022 and Beyond**

<p><b>Project Title:</b> Heacock Street / Reche Vista Drive to Myers Avenue and Atwood Avenue to Cactus Avenue</p> <p><b>Department / Division:</b> Public Works Department / Capital Projects Division</p>	<p><b>Project Status:</b></p> <input checked="" type="checkbox"/> New <input type="checkbox"/> In Progress <input type="checkbox"/> Completed <input type="checkbox"/> Deleted <input type="checkbox"/> On Hold	<p><b>Project Priority in CIP Category:</b></p> <input checked="" type="checkbox"/> Essential (Start within 1 yr) <input type="checkbox"/> Necessary (Start within 1 to 3 yrs) <input type="checkbox"/> Desirable (Start within 3 to 5 yrs) <input type="checkbox"/> Deferrable (Start within 5 to 10 yrs)
<p><b>Project Description:</b> This project will provide street improvements that include sidewalk, curb, gutter, asphalt concrete pavement, and striping along Heacock Street. Due to several requests from local residents, Phase I of this project includes the east side of Heacock Street from Gregory Lane to approximately 660 ft south of Gregory Lane. Phase I right of way is being secured. The cost for Phase I is approximately \$650,000 and will take approximately nine (9) months to design and construct. The City is seeking grant funding for Phase I. The FY 17-18 request is for a potential 10% match, increasing the City's likelihood of receiving the grant. The gap section shown on the location map, between Atwood Avenue and Myers Avenue, is covered on a separate project sheet.</p> <p><b>Justification or Significance of Improvement:</b> The purpose of this project is to improve segments of roadway where full-width street improvements do not currently exist.</p> <p><b>Estimated Maintenance Costs:</b> Street maintenance costs over a 20 year period are estimated to average approximately \$12,000 per 13 foot wide lane mile per year. Currently no new funding source has been identified to fund these maintenance costs.</p>	<p><b>Project Location Map:</b> Council District(s): <input checked="" type="checkbox"/> 1 <input checked="" type="checkbox"/> 2 <input type="checkbox"/> 3 <input type="checkbox"/> 4</p> <p><b>CIP Category:</b></p> <input checked="" type="checkbox"/> Streets and Highways <input type="checkbox"/> Bridges <input type="checkbox"/> Buildings <input type="checkbox"/> Drainage <input type="checkbox"/> Electric Utility <input type="checkbox"/> Parks <input type="checkbox"/> Traffic Signals <input type="checkbox"/> Underground Utilities <input type="checkbox"/> Other

<b>Project Title:</b> Heacock Street South Extension  <b>Department / Division:</b> Public Works Department / Capital Projects Division		<b>Project Status:</b> <input type="checkbox"/> New <input checked="" type="checkbox"/> In Progress <input type="checkbox"/> Completed <input type="checkbox"/> Deleted <input type="checkbox"/> On Hold	<b>Project Priority in CIP Category:</b> <input checked="" type="checkbox"/> Essential (Start within 1 yr) <input type="checkbox"/> Necessary (Start within 1 to 3 yrs) <input type="checkbox"/> Desirable (Start within 3 to 5 yrs) <input type="checkbox"/> Deferrable (Start within 5 to 10 yrs)
---	---	---	---

**Project Description:**  
 City staff has prepared a preliminary project alignment and traffic studies. The circulation element has been amended to include this segment on the Circulation Plan. The thirty-five percent (35%) plans have been completed. The project limit is from San Michele Road to Harley Knox Boulevard including the bridge over Perris Valley Storm Drain Lateral B. The design and right of way acquisition are programmed in WRCOG's 2017 central zone Transportation Improvement Program (TIP).  
 Environmental Assessment: Complete February 2014  
 35% Conceptual Design: Complete April 2014  
 Design: July 2017 to June 2018  
 Right of Way: July 2017 to June 2018  
 Construction: Subject to availability of funds

**Project Location Map:**

Council District(s):  1  2  3  4

**Justification or Significance of Improvement:**  
 Extension of Heacock Street to Harley Knox Boulevard would reduce traffic on Indian Street and Perris Boulevard, both of which are projected to carry large traffic volumes in the City's Circulation Element. It is also favored by MARB emergency services staff, which desires the connection to aid in responding to airfield-related incidents. The extension would also facilitate development of the adjacent industrial area.

**Estimated Maintenance Costs:**  
 Street maintenance costs over a 20 year period are estimated to average approximately \$12,000 per 13 foot wide lane mile per year. Currently no new funding source has been identified to fund these maintenance costs.

**Project Description:**  
This project establishes budget to process citywide Right of Way dedications in advance of need. The budget is used for staff and consultant time to solicit voluntary Right of Way from property owners, and for professional survey services to prepare the dedication documents. Some of the current priority locations include:

- Alessandro Boulevard, Kitching Street to Lasselle Street
- Eucalyptus Avenue, Perris Boulevard to Kitching Street
- Gregory Lane East of Heacock Street
- Indian Street, Krameria Avenue to Iris Avenue
- Iris Avenue at Emma Lane
- Mathews Road, South of Kalmia Avenue
- Sunnymead Boulevard West of Kitching Street

Schedule: Ongoing

**Justification or Significance of Improvement:**  
Projects which have already secured Right of Way are more competitive to receive grant funding for future roadway improvement projects.

**Estimated Maintenance Costs:**  
This project is not expected to increase maintenance cost.

**Project Location Map:** Council District(s):  1  2  3  4

**CITY OF MORENO VALLEY  
Capital Improvement Plan - Project Details  
FY 2017-2022 and Beyond**

<p><b>Project Title:</b> SR-60 / Moreno Beach Drive Interchange (Phase 2)</p> <p><b>Department / Division:</b> Public Works Department / Capital Projects Division</p>	<p><b>Project Status:</b></p> <input checked="" type="checkbox"/> New <input type="checkbox"/> In Progress <input type="checkbox"/> Completed <input type="checkbox"/> Deleted <input type="checkbox"/> On Hold	<p><b>Project Priority in CIP Category:</b></p> <input checked="" type="checkbox"/> Essential (Start within 1 yr) <input type="checkbox"/> Necessary (Start within 1 to 3 yrs) <input type="checkbox"/> Desirable (Start within 3 to 5 yrs) <input type="checkbox"/> Deferrable (Start within 5 to 10 yrs)
--	---	---

**Project Description:**  
 This project replaces the SR-60 / Moreno Beach two-lane bridge with a six through lane Bridge and reconfigures the north side of SR-60 / Moreno Beach Interchange, and associated west bound auxiliary lane. The interchange will have a cloverleaf in the northeast quadrant, and a dedicated southbound Moreno Beach to westbound SR-60 on-ramp. The eastbound ramp terminals constructed in 2013 will be raised slightly to meet the new grade of the bridge. Caltrans also requires a portion of line K-1 upstream of the interchange to be completed before or as part of interchange (see separate CIP sheet). Measure A funds were returned from Phase 1 (801 0038) for use on this project.  
 Right of Way: Complete  
 Design: July 2017 to June 2018  
 Advertise/Award: Subject to available funding  
 Construction: Subject to available funding

**Justification or Significance of Improvement:**  
 Design funding shown is to update the design plans to current Caltrans requirements. TUMF monies will be approved in April 2017 to fund completion of the design. City has possession of all Right of Way and project can be considered shovel-ready. Expansion of the current facilities will be needed due to the traffic demand resulting from development in the area.

**Estimated Maintenance Costs:**  
 Street and bridge surface maintenance costs over a 20 year period are estimated to average approximately \$12,000 per 13 foot wide lane mile per year. Currently no new funding source has been identified to fund these maintenance costs. Caltrans will fund maintenance of the ramps, freeway, and structures.

<p><b>Project Title:</b> Street Improvement Program (SIP)</p> <p><b>Department / Division:</b> Public Works Department / Capital Projects Division</p>	<p><b>Project Status:</b></p> <p><input type="checkbox"/> New      <input type="checkbox"/> Deleted</p> <p><input checked="" type="checkbox"/> In Progress      <input type="checkbox"/> On Hold</p> <p><input type="checkbox"/> Completed</p>	<p><b>Project Priority in CIP Category:</b></p> <p><input checked="" type="checkbox"/> Essential (Start within 1 yr)</p> <p><input type="checkbox"/> Necessary (Start within 1 to 3 yrs)</p> <p><input type="checkbox"/> Desirable (Start within 3 to 5 yrs)</p> <p><input type="checkbox"/> Deferrable (Start within 5 to 10 yrs)</p>
<p><b>Project Description:</b> As part of the Street Improvement Program, this project will install a storm drain in Redlands Boulevard within the Moreno Townsite Area, from Alessandro Boulevard to existing Drainage Facility Line F in Redlands Boulevard to mitigate flooding for the area. The project also includes miscellaneous street improvements to the previous SIP streets of Kimberly, Maltby, and Campbell associated with the storm drain installation. The project receives Federal Hazard Mitigation Grant Program (HMGP-DR 1731) funds with City's Measure A matching funds. Per the Master Plan, the City is entering into a cooperative agreement with the Riverside County Flood Control and Water Conservation District to upgrade the County's storm drain facility in Redlands Boulevard in conjunction with this project. Design: Complete June 2017 Advertise/Award: July 2017 to September 2017 Construction: October 2017 to April 2018</p>	<p><b>Project Location Map:</b> Council District(s): <input type="checkbox"/> 1 <input type="checkbox"/> 2 <input checked="" type="checkbox"/> 3 <input checked="" type="checkbox"/> 4</p>	
<p><b>Justification or Significance of Improvement:</b> Funding for selected private streets is based on technical criteria for road, public utility, and public services purposes. The purpose of the storm drain project is to convey storm water run-off of up to a 100-year storm event, which will reduce flooding in the Moreno Townsite area bounded by Redlands Boulevard, Merwin Street, Alessandro Boulevard, and Brodaea Avenue.</p>	<p><b>CIP Category:</b></p> <p><input checked="" type="checkbox"/> Streets and Highways      <input type="checkbox"/> Drainage      <input type="checkbox"/> Traffic Signals</p> <p><input type="checkbox"/> Bridges      <input type="checkbox"/> Electric Utility      <input type="checkbox"/> Underground Utilities</p> <p><input type="checkbox"/> Buildings      <input type="checkbox"/> Parks      <input type="checkbox"/> Other</p>	
<p><b>Estimated Maintenance Costs:</b> Street maintenance costs over a 20 year period are estimated to average approximately \$12,000 per 13 foot wide lane mile per year. Currently no new funding source has been identified to fund these maintenance costs.</p>

--	---	---

**Project Description:**  
 This project utilized FY 2008/2009 obligated TUMF funds for the PA&ED planning phase of the Alessandro Boulevard improvements. The objective of this project is to add travel lanes in the east-west direction by acquiring right of way and widening Alessandro Boulevard from four (4) lanes to six (6) lanes from Frederick Street to the Old 215 with transition lanes to I-215. Street improvements will include retaining walls, tree removals, grading, curb and gutter, pavement, and signing and striping. There are currently no additional TUMF allocations from the Western Riverside Council of Governments (WRCOG) to continue this project.

PA&ED: Completed January 2010  
 Design: Subject to available funding  
 Construction: Subject to available funding

This project was previously funded with TUMF funds.

**Project Location Map:** Council District(s):  1  2  3  4

**Justification or Significance of Improvement:**  
 There are currently no additional TUMF funding allocations to continue this project. The improvements are of regional significance to the area and will mitigate traffic congestion within the region.

**Estimated Maintenance Costs:**  
 Street maintenance costs over a 20 year period are estimated to average approximately \$12,000 per 13 foot wide lane mile per year. Currently no new funding source has been identified to fund these maintenance costs.

<p><b>Project Title:</b> Box Springs Road / West of Clark Street to Day Street</p> <p><b>Department / Division:</b> Public Works Department / Capital Projects Division</p>	<p><b>Project Status:</b></p> <input checked="" type="checkbox"/> New <input type="checkbox"/> In Progress <input type="checkbox"/> Completed <input type="checkbox"/> Deleted <input type="checkbox"/> On Hold	<p><b>Project Priority in CIP Category:</b></p> <input type="checkbox"/> Essential (Start within 1 yr) <input type="checkbox"/> Necessary (Start within 1 to 3 yrs) <input checked="" type="checkbox"/> Desirable (Start within 3 to 5 yrs) <input type="checkbox"/> Deferrable (Start within 5 to 10 yrs)
<p><b>Project Description:</b> The objective of this project is to provide an additional eastbound lane on the south side of Box Springs Road. The construction will include curb, gutter, sidewalks, traffic signal modifications, storm drain improvements, and right of way acquisitions. These improvements will mitigate traffic congestion by reducing travel time and fuel consumption.</p> <p>This project was previously funded through TUMF and Measure A.</p> <p><b>Justification or Significance of Improvement:</b> This project will provide improvements that will mitigate traffic congestion by reducing travel time and fuel consumption.</p> <p><b>Estimated Maintenance Costs:</b> Street maintenance costs over a 20 year period are estimated to average approximately \$12,000 per 13 foot wide lane mile per year. Currently no new funding source has been identified to fund these maintenance costs.</p>	<p><b>Project Location Map:</b> Council District(s): <input type="checkbox"/> 1 <input checked="" type="checkbox"/> 2 <input type="checkbox"/> 3 <input type="checkbox"/> 4</p> <p><b>CIP Category:</b></p> <input checked="" type="checkbox"/> Streets and Highways <input type="checkbox"/> Bridges <input type="checkbox"/> Buildings <input type="checkbox"/> Drainage <input type="checkbox"/> Electric Utility <input type="checkbox"/> Parks <input type="checkbox"/> Traffic Signals <input type="checkbox"/> Underground Utilities <input type="checkbox"/> Other

<p><b>Project Title:</b> Davis Street Roadway and Sidewalk Improvements / Ironwood Avenue to Manzanita Avenue</p> <p><b>Department / Division:</b> Public Works Department / Capital Projects Division</p>	<p><b>Project Status:</b></p> <input checked="" type="checkbox"/> New <input type="checkbox"/> In Progress <input type="checkbox"/> Completed <input type="checkbox"/> Deleted <input type="checkbox"/> On Hold	<p><b>Project Priority in CIP Category:</b></p> <input type="checkbox"/> Essential (Start within 1 yr) <input type="checkbox"/> Necessary (Start within 1 to 3 yrs) <input checked="" type="checkbox"/> Desirable (Start within 3 to 5 yrs) <input type="checkbox"/> Deferrable (Start within 5 to 10 yrs)
<p><b>Project Description:</b> This project will reconstruct sidewalks, access ramps, driveway approaches at various locations along both sides of Davis Street from Ironwood Avenue to Manzanita Avenue to upgrade these facilities to current ADA standards. The project will also include the relocations of utilities, fences and block walls, other obstructions along the sidewalks, and required rights of way to accommodate the proposed improvements.</p> <p><b>Justification or Significance of Improvement:</b> The purpose of this project is to provide upgrades and modifications to existing street improvements.</p> <p><b>Estimated Maintenance Costs:</b> Street maintenance costs over a 20 year period are estimated to average approximately \$12,000 per 13 foot wide lane mile per year. Sidewalk maintenance costs over a 50 year period are estimated to average approximately \$5,400 per 6 foot wide sidewalk mile per year. Currently no new funding source has been identified to fund these maintenance costs.</p>	<p><b>Project Location Map:</b></p> <p align="right">Council District(s): <input type="checkbox"/> 1 <input checked="" type="checkbox"/> 2 <input type="checkbox"/> 3 <input type="checkbox"/> 4</p> <p><b>CIP Category:</b></p> <input checked="" type="checkbox"/> Streets and Highways <input type="checkbox"/> Bridges <input type="checkbox"/> Buildings <input type="checkbox"/> Drainage <input type="checkbox"/> Electric Utility <input type="checkbox"/> Parks <input type="checkbox"/> Traffic Signals <input type="checkbox"/> Underground Utilities <input type="checkbox"/> Other

<p><b>Project Description:</b> This project will construct improvements on Day Street and provide signalized access to the existing Canyon Springs commercial center on the west side of Day Street, as well as a future commercial center on the east side of Day Street. The City was working with Caltrans to relinquish a portion of right of way along Day Street. Caltrans was not in favor of the action in 2014. Relinquishment of the Caltrans right of way to the City along Day Street would have allowed the City to modify the street.</p> <p><b>Justification or Significance of Improvement:</b> Improvements would provide for enhanced accessibility to the Canyon Springs shopping center. Viable options for access should be considered at the time the project becomes a priority.</p> <p><b>Estimated Maintenance Costs:</b> Street maintenance costs over a 20 year period are estimated to average approximately \$12,000 per 13 foot wide lane mile per year. Currently no new funding source has been identified to fund these maintenance costs.</p>	<p><b>Project Location Map:</b> Council District(s): <input type="checkbox"/> 1 <input checked="" type="checkbox"/> 2 <input type="checkbox"/> 3 <input type="checkbox"/> 4</p>  <p><b>CIP Category:</b></p> <p><input checked="" type="checkbox"/> Streets and Highways      <input type="checkbox"/> Drainage                      <input type="checkbox"/> Traffic Signals</p> <p><input type="checkbox"/> Bridges                              <input type="checkbox"/> Electric Utility              <input type="checkbox"/> Underground Utilities</p> <p><input type="checkbox"/> Buildings                              <input type="checkbox"/> Parks                              <input type="checkbox"/> Other</p>

<p><b>Project Title:</b> Eucalyptus Avenue / Perris Boulevard to Kitching Street</p> <p><b>Department / Division:</b> Public Works Department / Capital Projects Division</p>	<p><b>Project Status:</b></p> <input checked="" type="checkbox"/> New <input type="checkbox"/> In Progress <input type="checkbox"/> Completed <input type="checkbox"/> Deleted <input type="checkbox"/> On Hold	<p><b>Project Priority in CIP Category:</b></p> <input type="checkbox"/> Essential (Start within 1 yr) <input type="checkbox"/> Necessary (Start within 1 to 3 yrs) <input type="checkbox"/> Desirable (Start within 3 to 5 yrs) <input checked="" type="checkbox"/> Deferrable (Start within 5 to 10 yrs)
<p><b>Project Description:</b> This project will provide street improvements that include sidewalk, curb, gutter, median, asphalt concrete pavement, and striping. This segment of Eucalyptus Avenue is within the Community Development Block Grant (CDBG) target area and is eligible for CDBG funding.</p> <p><b>Justification or Significance of Improvement:</b> The purpose of this project is to improve a segment of Eucalyptus Avenue along the south side of the roadway, where full-width street and sidewalk improvements do not currently exist.</p> <p><b>Estimated Maintenance Costs:</b> Street maintenance costs over a 20 year period are estimated to average approximately \$12,000 per 13 foot wide lane mile per year. Currently no new funding source has been identified to fund these maintenance costs.</p>	<p><b>Project Location Map:</b> Council District(s): <input type="checkbox"/> 1 <input type="checkbox"/> 2 <input checked="" type="checkbox"/> 3 <input type="checkbox"/> 4</p> <p><b>CIP Category:</b></p> <input checked="" type="checkbox"/> Streets and Highways <input type="checkbox"/> Bridges <input type="checkbox"/> Buildings <input type="checkbox"/> Drainage <input type="checkbox"/> Electric Utility <input type="checkbox"/> Parks <input type="checkbox"/> Traffic Signals <input type="checkbox"/> Underground Utilities <input type="checkbox"/> Other

<p><b>Project Title:</b> Heacock Street Sidewalk / Atwood Avenue to Myers Avenue</p> <p><b>Department / Division:</b> Public Works Department / Capital Projects Division</p>	<p><b>Project Status:</b></p> <input type="checkbox"/> New <input type="checkbox"/> In Progress <input type="checkbox"/> Completed <input type="checkbox"/> Deleted <input checked="" type="checkbox"/> On Hold	<p><b>Project Priority in CIP Category:</b></p> <input type="checkbox"/> Essential (Start within 1 yr) <input type="checkbox"/> Necessary (Start within 1 to 3 yrs) <input type="checkbox"/> Desirable (Start within 3 to 5 yrs) <input checked="" type="checkbox"/> Deferrable (Start within 5 to 10 yrs)
<p><b>Project Description:</b> Phase 1 constructed a temporary asphalt concrete sidewalk which was completed in June 2012 at a cost of \$200,000.</p> <p>Phase 2 (Ultimate Improvements) This project will construct the ultimate street improvements and sidewalk along the east side of Heacock Street between Atwood Avenue and Myers Avenue. The project requires acquisition of right of way located on the east side of Heacock Street. Improvements will include full street widening on the east side that accommodates the General Plan cross section for Heacock Street (widening of the existing two through lanes, striped median, and shoulder), as well as construction of the ultimate sidewalk along this segment.</p> <p><b>Justification or Significance of Improvement:</b> This project will enhance the traffic conditions and provide a concrete sidewalk and full street width improvements per the City standard for this section of Heacock Street.</p> <p><b>Estimated Maintenance Costs:</b> Street maintenance costs over a 20 year period are estimated to average approximately \$12,000 per 13 foot wide lane mile per year. Currently no new funding source has been identified to fund these maintenance costs.</p>	<p><b>Project Location Map:</b> Council District(s): <input checked="" type="checkbox"/> 1 <input type="checkbox"/> 2 <input type="checkbox"/> 3 <input type="checkbox"/> 4</p>  <p><b>CIP Category:</b></p> <input checked="" type="checkbox"/> Streets and Highways <input type="checkbox"/> Bridges <input type="checkbox"/> Buildings <input type="checkbox"/> Drainage <input type="checkbox"/> Electric Utility <input type="checkbox"/> Parks <input type="checkbox"/> Traffic Signals <input type="checkbox"/> Underground Utilities <input type="checkbox"/> Other

Capital Improvement Plan - Project Details  
FY 2017-2022 and Beyond**

<p><b>Project Title:</b> I-215 / Cactus Avenue Interchange Improvements</p> <p><b>Department / Division:</b> Public Works Department / Capital Projects Division</p>	<p><b>Project Status:</b></p> <input type="checkbox"/> New <input type="checkbox"/> In Progress <input type="checkbox"/> Completed <input type="checkbox"/> Deleted <input checked="" type="checkbox"/> On Hold	<p><b>Project Priority in CIP Category:</b></p> <input type="checkbox"/> Essential (Start within 1 yr) <input checked="" type="checkbox"/> Necessary (Start within 1 to 3 yrs) <input type="checkbox"/> Desirable (Start within 3 to 5 yrs) <input type="checkbox"/> Deferrable (Start within 5 to 10 yrs)
--	---	---

**Project Description:**  
 The project will study alternatives to improve the I-215 / Cactus Avenue on- and off-ramps, eliminating or realigning auxiliary lanes and widening or replacing the over-crossing structure at I-215 / Cactus Avenue. TUMF allocations are dependent upon the availability of funds from the Western Riverside Council of Governments (WRCOG).

Project Study Report: Caltrans sign-off July 2009  
 Project Approval and Environmental Documentation: Subject to available funding  
 Design: Subject to available funding  
 Right of Way: Subject to available funding  
 Construction: Subject to available funding

This project was previously funded under TUMF.

**Project Location Map:** Council District(s):  1  2  3  4

**Justification or Significance of Improvement:**  
 The objective of the project is to reduce traffic congestion, enhance access, and improve traffic circulation along Cactus Avenue and to the main gate at March Air Reserve Base (MARB).

**Estimated Maintenance Costs:**  
 Street maintenance costs over a 20 year period are estimated to average approximately \$12,000 per 13 foot wide lane mile per year. Currently no new funding source has been identified to fund these maintenance costs.

<p><b>Project Title:</b> Ironwood Avenue / Perris Boulevard to Nason Street</p> <p><b>Department / Division:</b> Public Works Department / Capital Projects Division</p>	<p><b>Project Status:</b></p> <input type="checkbox"/> New <input type="checkbox"/> In Progress <input type="checkbox"/> Completed <input type="checkbox"/> Deleted <input checked="" type="checkbox"/> On Hold	<p><b>Project Priority in CIP Category:</b></p> <input type="checkbox"/> Essential (Start within 1 yr) <input checked="" type="checkbox"/> Necessary (Start within 1 to 3 yrs) <input type="checkbox"/> Desirable (Start within 3 to 5 yrs) <input type="checkbox"/> Deferrable (Start within 5 to 10 yrs)
--	---	---

**Project Description:**  
 This project will widen Ironwood Avenue from Perris Boulevard to Nason Street from two lanes to four lanes with a two-way turn lane, bike lanes, and sidewalks west of Vista de Cerros, and two lanes with two-way left-turn lane, bike lanes, and sidewalks east of Vista de Cerros. The City Council approved the Mitigated Negative Declaration for the project in May 2011, and WRCOG has reimbursed the City for the PA&ED phase. Final design and construction will proceed based on available funding. Staff has identified two potential projects that could be implemented if appropriate funding were made available. The first is widening at the northwest corner of Ironwood Avenue and Kitching Street to remove the bottleneck at this point and provide four travel lanes between Perris Boulevard and Lasselle Street at a cost of \$800,000. The second is widening between Dalehurst Road and Helga Lane, with transitions on each end, to provide a turning lane, shoulders, and sidewalk at a cost of \$990,000. Either project would require 18-24 months to allow for final design, utility coordination, and/or right of way acquisition as appropriate.  
 Preliminary Engineering / Environmental: Completed June 2011; Right of Way and Design: Subject to available funding

**Project Location Map:** Council District(s):  1  2  3  4

**Justification or Significance of Improvement:**  
 Ironwood Avenue provides a local east-west traffic link within the City. The proposed improvements will enhance roadway capacity and improve safety.

**Estimated Maintenance Costs:**  
 Street maintenance costs over a 20 year period are estimated to average approximately \$12,000 per 13 foot wide lane mile per year. Currently no new funding source has been identified to fund these maintenance costs.

<p><b>Project Title:</b> Kitching Street / Cactus Avenue to Gentian Avenue</p> <p><b>Department / Division:</b> Public Works Department / Capital Projects Division</p>	<p><b>Project Status:</b></p> <input type="checkbox"/> New <input type="checkbox"/> In Progress <input type="checkbox"/> Completed <input type="checkbox"/> Deleted <input checked="" type="checkbox"/> On Hold	<p><b>Project Priority in CIP Category:</b></p> <input type="checkbox"/> Essential (Start within 1 yr) <input type="checkbox"/> Necessary (Start within 1 to 3 yrs) <input checked="" type="checkbox"/> Desirable (Start within 3 to 5 yrs) <input type="checkbox"/> Deferrable (Start within 5 to 10 yrs)
<p><b>Project Description:</b>          This project widens Kitching Street from Cactus Avenue to Gentian Avenue to four lanes. This project is shovel-ready for construction. The original funding of \$2.5 million was redirected to the Nason Street / Cactus Avenue project as part of the City's Economic Development Plan per Council direction on 04/26/11. Kitching Street Widening / Alessandro Boulevard to Cactus Avenue was completed in December 2010.</p> <p>Design, Right of Way, &amp; Utility Relocations: Completed September 2011          Construction: Subject to availability of funds</p> <p><b>Justification or Significance of Improvement:</b>          This project will mitigate traffic congestion and improve air quality by reducing vehicular travel time and fuel consumption. Construction of the work will result in the ultimate street section along Kitching Street, providing connectivity to Iris Avenue, Cactus Avenue, and Alessandro Boulevard.</p> <p><b>Estimated Maintenance Costs:</b>          Street maintenance costs over a 20 year period are estimated to average approximately \$12,000 per 13 foot wide lane mile per year. Currently no new funding source has been identified to fund these maintenance costs.</p>	<p><b>Project Location Map:</b> Council District(s): <input type="checkbox"/> 1 <input type="checkbox"/> 2 <input checked="" type="checkbox"/> 3 <input checked="" type="checkbox"/> 4</p> <p><b>CIP Category:</b></p> <input checked="" type="checkbox"/> Streets and Highways <input type="checkbox"/> Bridges <input type="checkbox"/> Buildings <input type="checkbox"/> Drainage <input type="checkbox"/> Electric Utility <input type="checkbox"/> Parks <input type="checkbox"/> Traffic Signals <input type="checkbox"/> Underground Utilities <input type="checkbox"/> Other

<p><b>Project Title:</b> Mathews Road Extension / Kalmia Avenue to 660 Ft South of Kalmia Avenue</p> <p><b>Department / Division:</b> Public Works Department / Capital Projects Division</p>	<p><b>Project Status:</b></p> <input checked="" type="checkbox"/> New <input type="checkbox"/> In Progress <input type="checkbox"/> Completed <input type="checkbox"/> Deleted <input type="checkbox"/> On Hold	<p><b>Project Priority in CIP Category:</b></p> <input type="checkbox"/> Essential (Start within 1 yr) <input type="checkbox"/> Necessary (Start within 1 to 3 yrs) <input checked="" type="checkbox"/> Desirable (Start within 3 to 5 yrs) <input type="checkbox"/> Deferrable (Start within 5 to 10 yrs)
<p><b>Project Description:</b> This project will extend Mathews Road for 660 feet south of Kalmia Avenue to Kalmia Avenue. The project will provide full roadway improvements that include sidewalk, curb, gutter, asphalt concrete pavement, signage, and striping.</p> <p><b>Justification or Significance of Improvement:</b> The purpose of this project is to improve segments of roadway where missing street improvements do not currently exist. The construction of this missing street segment of Mathews Road will significantly improve the traffic circulation of North Ridge Elementary School located on Kalmia Avenue west of Mathews Road.</p> <p><b>Estimated Maintenance Costs:</b> Street maintenance costs over a 20 year period are estimated to average approximately \$12,000 per 13 foot wide lane mile per year. Currently no new funding source has been identified to fund these maintenance costs.</p>	<p><b>Project Location Map:</b></p> <p align="right">Council District(s): <input type="checkbox"/> 1 <input checked="" type="checkbox"/> 2 <input type="checkbox"/> 3 <input type="checkbox"/> 4</p> <p><b>CIP Category:</b></p> <input checked="" type="checkbox"/> Streets and Highways <input type="checkbox"/> Bridges <input type="checkbox"/> Buildings <input type="checkbox"/> Drainage <input type="checkbox"/> Electric Utility <input type="checkbox"/> Parks <input type="checkbox"/> Traffic Signals <input type="checkbox"/> Underground Utilities <input type="checkbox"/> Other

<p><b>Project Title:</b> Moreno Beach Drive Widening / Cactus Avenue to Auto Mall Drive</p> <p><b>Department / Division:</b> Public Works Department / Capital Projects Division</p>	<p><b>Project Status:</b></p> <input type="checkbox"/> New <input type="checkbox"/> In Progress <input type="checkbox"/> Completed <input type="checkbox"/> Deleted <input checked="" type="checkbox"/> On Hold	<p><b>Project Priority in CIP Category:</b></p> <input type="checkbox"/> Essential (Start within 1 yr) <input checked="" type="checkbox"/> Necessary (Start within 1 to 3 yrs) <input type="checkbox"/> Desirable (Start within 3 to 5 yrs) <input type="checkbox"/> Deferrable (Start within 5 to 10 yrs)
--	--	---

**Project Description:**  
 The ultimate improvements will widen Moreno Beach Dr. from two lanes to a six lane divided major arterial highway at a cost of \$22,786,000. Due to possible funding constraints, a seven-phase approach to the project may be necessary.  
 Ph. 1 - Construct interim four lane facility at Moreno Beach Dr. from Auto Mall Dr. to south of Cottonwood Ave. (\$3,774,000). Ph. 2 - Alessandro Blvd./Moreno Beach Dr. intersection widening (\$3,917,000). Ph. 3 - Construct interim four lane facility at Moreno Beach Dr. from South of Cottonwood Ave. to north of Alessandro Blvd. (\$1,748,000). Ph. 4 - Construct interim four lane facility at Moreno Beach Dr. from south of Alessandro Blvd. to Cactus Ave. (\$1,324,000). Ph. 5 - Full six lane facility on Moreno Beach Dr. from Auto Mall Dr. to south of Cottonwood Ave. (\$5,426,000). Ph. 6 - Full six lane facility on Moreno Beach Dr. from south of Cottonwood Ave. to north of Alessandro Blvd. (\$3,735,000). Ph. 7 - Full six lane facility on Moreno Beach Dr. from south of Alessandro Blvd. to Cactus Ave. (\$2,862,000).  
 PAS & PSR: Completed in April 2011; Design & CEQA for Phase I will take approximately 5 months, subject to available funding. Construction for Phase I will take approximately 9 months.

**Project Location Map:** Council District(s):  1  2  3  4

**Justification or Significance of Improvement:**  
 This project will improve traffic flow and enhance safety. The arterial improvements are consistent with the City's General Plan.

**Estimated Maintenance Costs:**  
 Street maintenance costs over a 20 year period are estimated to average approximately \$12,000 per 13 foot wide lane mile per year. Currently no new funding source has been identified to fund these maintenance costs.

--	---	---

**Project Description:**  
Nason Street Segment: Elder Avenue to Ironwood Avenue  
This project will provide street improvements that include sidewalk, curb, gutter, median, asphalt concrete pavement, and striping.

**Justification or Significance of Improvement:**  
The purpose of this project is to improve segments of roadway where full-width street improvements do not currently exist.

**Estimated Maintenance Costs:**  
Street maintenance costs over a 20 year period are estimated to average approximately \$12,000 per 13 foot wide lane mile per year. Currently no new funding source has been identified to fund these maintenance costs.

**Project Location Map:** Council District(s):  1  2  3  4

<p><b>Project Title:</b> Slurry Seal Program</p> <p><b>Department / Division:</b> Public Works Department / Capital Projects Division</p>	<p><b>Project Status:</b></p> <input type="checkbox"/> New <input type="checkbox"/> In Progress <input type="checkbox"/> Completed <input type="checkbox"/> Deleted <input checked="" type="checkbox"/> On Hold	<p><b>Project Priority in CIP Category:</b></p> <input type="checkbox"/> Essential (Start within 1 yr) <input checked="" type="checkbox"/> Necessary (Start within 1 to 3 yrs) <input type="checkbox"/> Desirable (Start within 3 to 5 yrs) <input type="checkbox"/> Deferrable (Start within 5 to 10 yrs)
<p><b>Project Description:</b> This program is part of the City's Pavement Management System. The purpose of slurry seal coating is to prevent deterioration of the streets by protecting the street surface from loss of fines and ultraviolet rays, thus extending the life of the road. The City is divided into five slurry seal zones. A slurry seal treatment has an approximate five year life.</p> <p><b>Justification or Significance of Improvement:</b> Slurry seal enhances the roadway surface, protects the pavement structure integrity, and extends the life of the pavement.</p> <p><b>Estimated Maintenance Costs:</b> Street maintenance costs over a 20 year period are estimated to average approximately \$12,000 per 13 foot wide lane mile per year. Currently no new funding source has been identified to fund these maintenance costs.</p>	<p><b>Project Location Map:</b> Council District(s): <input checked="" type="checkbox"/> 1 <input checked="" type="checkbox"/> 2 <input checked="" type="checkbox"/> 3 <input checked="" type="checkbox"/> 4</p>  <p><b>CIP Category:</b></p> <input checked="" type="checkbox"/> Streets and Highways <input type="checkbox"/> Bridges <input type="checkbox"/> Buildings <input type="checkbox"/> Drainage <input type="checkbox"/> Electric Utility <input type="checkbox"/> Parks <input type="checkbox"/> Traffic Signals <input type="checkbox"/> Underground Utilities <input type="checkbox"/> Other

FY 2017-2022 and Beyond**

<p><b>Project Title:</b> Street In-Lieu Fees Project</p> <p><b>Department / Division:</b> Public Works Department / Land Development Division</p>	<p><b>Project Status:</b></p> <input checked="" type="checkbox"/> New <input type="checkbox"/> In Progress <input type="checkbox"/> Completed <input type="checkbox"/> Deleted <input type="checkbox"/> On Hold	<p><b>Project Priority in CIP Category:</b></p> <input type="checkbox"/> Essential (Start within 1 yr) <input type="checkbox"/> Necessary (Start within 1 to 3 yrs) <input type="checkbox"/> Desirable (Start within 3 to 5 yrs) <input checked="" type="checkbox"/> Deferrable (Start within 5 to 10 yrs)																																							
<p><b>Project Description:</b> The street in-lieu fees help construct public improvements that are linked to the projects for which the fees are collected. A project will be completed when fees collected from property owners are sufficient to complete missing street segment improvements for a particular street. Some project streets have been accepted into the City's maintained street system while others have not.</p> <p><b>Justification or Significance of Improvement:</b> As there is no way to predict when and where development will occur, it is uncertain when the project streets will be constructed. Project streets will be programmed for ultimate improvements when sufficient funds are received from property owners as they develop and pay their street in-lieu of construction fees.</p> <p><b>Estimated Maintenance Costs:</b> Street maintenance costs over a 20 year period are estimated to average approximately \$12,000 per 13 foot wide lane mile per year. Currently no new funding source has been identified to fund these maintenance costs.</p>	<p><b>Project Location Map:</b> Council District(s): <input checked="" type="checkbox"/> 1 <input checked="" type="checkbox"/> 2 <input checked="" type="checkbox"/> 3 <input checked="" type="checkbox"/> 4</p> <table border="1" style="width:100%; border-collapse: collapse;"> <thead> <tr> <th>Street Name</th> <th>Project Number</th> <th>Collected</th> </tr> </thead> <tbody> <tr> <td>Belia Ct -----</td> <td>PM 26547 -----</td> <td>\$13,000.00</td> </tr> <tr> <td>Black Oak Av -----</td> <td>PA04-0011 / PM 19476 -----</td> <td>\$10,446.00</td> </tr> <tr> <td>Highland Bl -----</td> <td>P05-169 -----</td> <td>\$10,383.00</td> </tr> <tr> <td>Hilton Dr -----</td> <td>PA04-0182 -----</td> <td>\$5,226.00</td> </tr> <tr> <td>Maltby Av and Kimberly Av -----</td> <td>P04-216 -----</td> <td>\$33,420.00</td> </tr> <tr> <td>Quincy St -----</td> <td>PA02-0122 -----</td> <td>\$18,333.57</td> </tr> <tr> <td>Via Von Botsch -----</td> <td>PA06-0019 -----</td> <td>\$14,899.00</td> </tr> <tr> <td>Black Oak Av -----</td> <td>PA04-0207 -----</td> <td>\$9,440.64</td> </tr> <tr> <td>Kalmia Av -----</td> <td>PA03-0124 -----</td> <td>\$21,677.00</td> </tr> <tr> <td>Irish Av -----</td> <td>PA11-0007 / PM 35879 -----</td> <td>\$103,293.00</td> </tr> <tr> <td>Locust Av -----</td> <td>PA13-0067 -----</td> <td>\$17,083.00</td> </tr> <tr> <td align="right" colspan="2"></td> <td><b>Total \$263,463.21</b></td> </tr> </tbody> </table> <p><b>CIP Category:</b></p> <input checked="" type="checkbox"/> Streets and Highways <input type="checkbox"/> Bridges <input type="checkbox"/> Buildings <input type="checkbox"/> Drainage <input type="checkbox"/> Electric Utility <input type="checkbox"/> Parks <input type="checkbox"/> Traffic Signals <input type="checkbox"/> Underground Utilities <input type="checkbox"/> Other		Street Name	Project Number	Collected	Belia Ct -----	PM 26547 -----	\$13,000.00	Black Oak Av -----	PA04-0011 / PM 19476 -----	\$10,446.00	Highland Bl -----	P05-169 -----	\$10,383.00	Hilton Dr -----	PA04-0182 -----	\$5,226.00	Maltby Av and Kimberly Av -----	P04-216 -----	\$33,420.00	Quincy St -----	PA02-0122 -----	\$18,333.57	Via Von Botsch -----	PA06-0019 -----	\$14,899.00	Black Oak Av -----	PA04-0207 -----	\$9,440.64	Kalmia Av -----	PA03-0124 -----	\$21,677.00	Irish Av -----	PA11-0007 / PM 35879 -----	\$103,293.00	Locust Av -----	PA13-0067 -----	\$17,083.00			<b>Total \$263,463.21</b>

**FY 2017-2022 and Beyond**

**Project Title:** Indian Street / Cardinal Avenue Bridge (Over Lateral A)  
**Department / Division:** Public Works Department / Capital Projects Division

**Project Status:**  
 New  
 In Progress  
 Completed  
 Deleted  
 On Hold

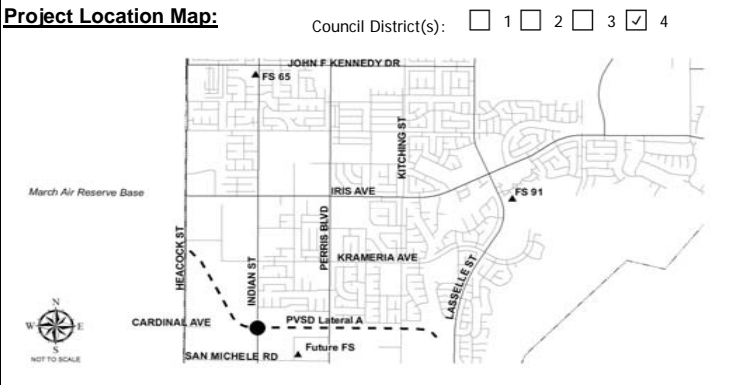

**Project Priority in CIP Category:**  
 Essential (Start within 1 yr)  
 Necessary (Start within 1 to 3 yrs)  
 Desirable (Start within 3 to 5 yrs)  
 Deferrable (Start within 5 to 10 yrs)

**Project Description:**  
 This project will provide an approximately 150 foot long, two-lane bridge on Indian Street over Channel Lateral A (at Cardinal Avenue) and approximately 600 feet of associated roadway improvements on Indian Street. The bridge and roadway improvements will complete the connection of Indian Street north of the channel to south of the channel. A conceptual study was completed in March 2015 to be used as a base for design.

Environmental and Design: July 2017 to June 2019  
 Right of Way Acquisition: July 2019 to February 2020 (Subject to available funding)  
 Construction: July 2020 to March 2021 (Subject to available funding)

**Justification or Significance of Improvement:**  
 This project will close a gap, provide continuity in traffic, and benefit emergency responders. A future fire station is being planned for the City's southside industrial area. This bridge will enhance response time for emergencies.

**Estimated Maintenance Costs:**  
 Bridge improvement and routine maintenance costs are estimated to average approximately \$1.20 per square foot per year. Currently no new funding source has been identified to fund these maintenance costs.

**CIP Category:**  
 Streets and Highways  
 Bridges  
 Buildings  
 Drainage  
 Electric Utility  
 Parks  
 Traffic Signals  
 Underground Utilities

<p><b>Project Description:</b> This structure rehabilitation involves deck overlays, drainage retrofit, approach slab and diaphragm retrofit, and foundation retrofit. Federal funds for 88.53% of costs are available through an application process for Highway Bridge Program (HBP). The developer will be requested to provide up front monies and local match for the grant due to design deficiencies. Funds shown for design for FY 17/18 are for preparation of funding application and correction of sufficiency rating. Funds shown for FY 18/19 are for design.</p> <p><b>Justification or Significance of Improvement:</b> Recent inspection found the bridge has service and seismic deficiencies.</p> <p><b>Estimated Maintenance Costs:</b> This bridge has many deficiencies. Once reconstructed, maintenance costs will be in the normal range. Bridge improvement and routine maintenance costs are estimated to average approximately \$1.20 per square foot per year. Currently no new funding source has been identified to fund these maintenance costs.</p>	<p><b>Project Location Map:</b> Council District(s): <input type="checkbox"/> 1 <input type="checkbox"/> 2 <input type="checkbox"/> 3 <input checked="" type="checkbox"/> 4</p> <p><b>CIP Category:</b></p> <input type="checkbox"/> Streets and Highways <input checked="" type="checkbox"/> Bridges <input type="checkbox"/> Buildings <input type="checkbox"/> Drainage <input type="checkbox"/> Electric Utility <input type="checkbox"/> Parks <input type="checkbox"/> Traffic Signals <input type="checkbox"/> Underground Utilities <input type="checkbox"/> Other

---	---	---

**Project Description:**  
 This project replaced the existing SR-60/Nason Street two-lane bridge with a four-lane bridge, completed Nason Street improvements, installed a sound wall along Elder Avenue, and constructed associated work.  
 Construction (Bridge): Completed February 2014  
 Construction (Landscaping): Completed July 2014  
 Plant Establishment: October 2014 to October 2017  
 Close-out: November 2017 to March 2018

Carryover funds and new funds are for 3-year plant establishment, close-out of project, and conveyance of right-of-way to Caltrans. The amendment to the agreement for this 3-year plant establishment period work was approved by City Council on November 12, 2013. Project savings from SR-60/Redlands Boulevard Interchange are to be returned for use on this project for conveyance of right of way. General fund request is for maintenance of City's portion of landscaping. This cost may be offset or eliminated if transferred to a developer or Clatrans.

**Project Location Map:** Council District(s):  1  2  3  4

**CIP Category:**  
 Streets and Highways  
 Bridges  
 Buildings  
 Drainage  
 Electric Utility  
 Parks  
 Traffic Signals  
 Underground Utilities  
 Other

**Justification or Significance of Improvement:**  
 Expansion of the current facilities was needed due to traffic demand resulting from development in the area. This was a key project in the City's Economic Development Action Plan, in order to stimulate economic development activity.

**Estimated Maintenance Costs:**  
 Bridge surface and street maintenance costs over a 20 year period are estimated to average approximately \$12,000 per 13 foot wide lane mile per year. Currently no new funding source has been identified to fund these maintenance costs. Caltrans is funding maintenance of the ramps, freeway, and structures.

<p><b>Project Title:</b> Bridge Preventive Maintenance Plan for 10 Bridges</p> <p><b>Department / Division:</b> Public Works Department / Capital Projects Division</p>	<p><b>Project Status:</b></p> <input checked="" type="checkbox"/> New <input type="checkbox"/> In Progress <input type="checkbox"/> Completed <input type="checkbox"/> Deleted <input type="checkbox"/> On Hold	<p><b>Project Priority in CIP Category:</b></p> <input type="checkbox"/> Essential (Start within 1 yr) <input checked="" type="checkbox"/> Necessary (Start within 1 to 3 yrs) <input type="checkbox"/> Desirable (Start within 3 to 5 yrs) <input type="checkbox"/> Deferrable (Start within 5 to 10 yrs)
<p><b>Project Description:</b> The Bridge Preventative Maintenance Plan provides for extensive rehabilitation strategies for ten (10) bridges. The list was approved by Caltrans on September 12, 2016 for programming in summer of 2017 depending upon SCAG's inclusion on FTIP. Caltrans will allocate funds for the Preliminary Engineering phase. Federal funds for 88.53% of cost will be programmed in FY 2019/20 by Caltrans. If a funding source to replace Measure A match can be identified, the work can be advanced by 1 to 2 years.</p> <p><b>Justification or Significance of Improvement:</b> The ten (10) locations were the top priority following the City's detailed inspection in 2014 and coordination with Caltrans in 2015.</p> <p><b>Estimated Maintenance Costs:</b> Bridge surface and street maintenance costs over a 20 year period are estimated to average approximately \$12,000 per 13 foot wide lane mile per year. Currently no new funding source has been identified to fund these maintenance costs.</p>	<p><b>Project Location Map:</b> Council District(s): <input checked="" type="checkbox"/> 1 <input type="checkbox"/> 2 <input checked="" type="checkbox"/> 3 <input checked="" type="checkbox"/> 4</p> <p><b>CIP Category:</b></p> <input type="checkbox"/> Streets and Highways <input checked="" type="checkbox"/> Bridges <input type="checkbox"/> Buildings <input type="checkbox"/> Drainage <input type="checkbox"/> Electric Utility <input type="checkbox"/> Parks <input type="checkbox"/> Traffic Signals <input type="checkbox"/> Underground Utilities <input type="checkbox"/> Other

<p><b>Project Description:</b>  This project will involve design and construction of a new SR 60 freeway westbound on-ramp on the west side of Day Street. It includes a WB auxiliary lane, HOV bypass lanes on both WB on-ramps, bridge widening for the WB loop on-ramp HOV bypass lane, and associated walls and traffic channelization devices. The project includes constructing the missing sidewalk gap along the west side of Day Street at an estimated cost of \$1,000,000 for construction, starting in FY 2019-2020.</p> <p><b>Justification or Significance of Improvement:</b>  The existing interchange will require modification in order to meet projected traffic demand.</p> <p><b>Estimated Maintenance Costs:</b>  Bridge surface and street maintenance costs over a 20 year period are estimated to average approximately \$12,000 per 13 foot wide lane mile per year. Currently no new funding source has been identified to fund these maintenance costs. --	--	---

**Project Description:**  
 This project will involve the design and construction of a replacement bridge at Indian Street over SR-60.

**Justification or Significance of Improvement:**  
 The existing bridge is considered structurally deficient and functionally obsolete and will require replacement in the future. A bridge assessment and funding application were prepared and submitted to Caltrans in April 2014. Funds were not available at the time.

**Estimated Maintenance Costs:**  
 Bridge surface and street maintenance costs over a 20 year period are estimated to average approximately \$12,000 per 13 foot wide lane mile per year. Currently no new funding source has been identified to fund these maintenance costs. Caltrans will fund maintenance of the structure.

**Project Location Map:** Council District(s):  1  2  3  4

<p><b>Project Title:</b> Lasselie Street Bridge Crossing SR-60 between Fir Avenue and Elder Avenue</p> <p><b>Department / Division:</b> Public Works Department / Capital Projects Division</p>	<p><b>Project Status:</b></p> <input checked="" type="checkbox"/> New <input type="checkbox"/> In Progress <input type="checkbox"/> Completed <input type="checkbox"/> Deleted <input type="checkbox"/> On Hold	<p><b>Project Priority in CIP Category:</b></p> <input type="checkbox"/> Essential (Start within 1 yr) <input type="checkbox"/> Necessary (Start within 1 to 3 yrs) <input type="checkbox"/> Desirable (Start within 3 to 5 yrs) <input checked="" type="checkbox"/> Deferrable (Start within 5 to 10 yrs)
---	--	---

**Project Description:**  
 This project will design, acquire right of way, and construct Lasselie Street 2-lane bridge crossing over SR-60 and the RCFC&WCD detention basin. Total bridge length spans approximately 550 feet in length by 50 feet wide including bridge approach starting approximately 600 feet north of Fir Avenue.

The improvements will construct new traffic signals at the intersections of Lasselie Street with Fir Avenue and Elder Avenue. A significant number of recently developed residential properties will need to be acquired to construct this bridge.

**Justification or Significance of Improvement:**  
 This proposed project is not part of the City approved General Plan Circulation Element.

**Estimated Maintenance Costs:**  
 Bridge surface and street maintenance costs over a 20 year period are estimated to average approximately \$12,000 per 13 foot wide lane mile per year. Currently no new funding source has been identified to fund these maintenance costs. Caltrans will fund maintenance of the structure.

**Project Location Map:** Council District(s):  1  2  3  4

**CITY OF MORENO VALLEY  
Capital Improvement Plan - Project Details  
FY 2017-2022 and Beyond**

<p><b>Project Title:</b> Box Springs Communications Site</p> <p><b>Department / Division:</b> City Manager's Office / Technology Services Division</p>	<p><b>Project Status:</b></p> <input type="checkbox"/> New <input checked="" type="checkbox"/> In Progress <input type="checkbox"/> Completed <input type="checkbox"/> Deleted <input type="checkbox"/> On Hold	<p><b>Project Priority in CIP Category:</b></p> <input checked="" type="checkbox"/> Essential (Start within 1 yr) <input type="checkbox"/> Necessary (Start within 1 to 3 yrs) <input type="checkbox"/> Desirable (Start within 3 to 5 yrs) <input type="checkbox"/> Deferrable (Start within 5 to 10 yrs)
<p><b>Project Description:</b>          In FY 99/00, Telecommunications installed six microwave radio link systems that support communications for voice, data, surveillance video, and security access systems. The hub is located on leased tower space from American Towers on Box Springs Mountain, and is a major hub supporting 70% of the communications backbone from City Hall to Box Springs, City Yard, Library, MARB, and Senior Center. This site also supports an Amateur Radio repeater system serving as a relay for remotely linking voice, data, and video from mobile command posts in the field into the Emergency Operations Center (EOC) during a major event or natural disaster. This project also consolidates the City's 800-MHz Radio Repeater System Centralization project. The project secured a new land lease at reduced cost, and is constructing a secure site that includes an equipment building, tower, backup generator, and improved security. Once completed, City communications equipment would be relocated to the new facility, thus decreasing constantly increasing costs from American Towers. Cost savings will be realized each year due to operating costs being lower than current lease costs and as communications equipment is installed since the City will own the tower and will not have to lease additional equipment space.          Design: Completed September 2016          Construction: December 2016 to July 2017</p> <p><b>Justification or Significance of Improvement:</b> The City's development and continuing day-to-day operations depend on this site.</p> <p><b>Estimated Maintenance Costs:</b> Annual cost for leasing, energy, and miscellaneous site maintenance is \$26,000/year. This amount is offset by annual savings of \$39,000.</p>	<p><b>Project Location Map:</b> Council District(s): <input type="checkbox"/> 1 <input type="checkbox"/> 2 <input type="checkbox"/> 3 <input type="checkbox"/> 4</p> <p><b>CIP Category:</b></p> <input type="checkbox"/> Streets and Highways <input type="checkbox"/> Bridges <input checked="" type="checkbox"/> Buildings <input type="checkbox"/> Drainage <input type="checkbox"/> Electric Utility <input type="checkbox"/> Parks <input type="checkbox"/> Traffic Signals <input type="checkbox"/> Underground Utilities <input type="checkbox"/> Other

--	--	--

**Project Description:**  
This project will replace old wood flooring, window coverings, and lighting at Towngate Community Center.

Construction: July 2015 to June 2018

**Justification or Significance of Improvement:**  
The center is approximately 11 years old and is frequently rented. The wood flooring is worn by usage and damaged due to excessive moisture and needs to be replaced with a more durable product.

**Estimated Maintenance Costs:**  
Annual average building maintenance costs are estimated at approximately \$9/SF. Although actual maintenance costs may vary, this estimated cost is based on an industry accepted standard maintenance cost. Currently no new funding source has been identified to fund these maintenance costs.

**Project Location Map:** Council District(s):  1  2  3  4

**CIP Category:**

Streets and Highways       Drainage       Traffic Signals

Bridges       Electric Utility       Underground Utilities

<p><b>Project Title:</b> Corporate Yard Facility - Phase 1</p> <p><b>Department / Division:</b> Public Works Department / Capital Projects Division</p>	<p><b>Project Status:</b></p> <input type="checkbox"/> New <input type="checkbox"/> In Progress <input checked="" type="checkbox"/> Completed <input type="checkbox"/> Deleted <input type="checkbox"/> On Hold	<p><b>Project Priority in CIP Category:</b></p> <input checked="" type="checkbox"/> Essential (Start within 1 yr) <input type="checkbox"/> Necessary (Start within 1 to 3 yrs) <input type="checkbox"/> Desirable (Start within 3 to 5 yrs) <input type="checkbox"/> Deferrable (Start within 5 to 10 yrs)
<p><b>Project Description:</b>          This project provided a new Corporate Yard administration Building Phase 1 (approximately 5,260 square feet) to house Maintenance &amp; Operations and Parks Maintenance staff currently operating out of the outdated existing Corporate Yard office building. The project included an asphalt concrete parking lot, potable water, fire water, sewer, storm drain system, security fencing, and landscaping. The overall Corporate Yard facility has been divided into ten (10) phases at a total estimated cost of \$49 million. Later phases will be designed and constructed as the budget allows.</p> <p>Construction: Completed June 2016</p> <p><b>Justification or Significance of Improvement:</b>          This project will relocate the existing administrative function within the Corporate Yard facility. The existing facility is outdated and undersized. Carryover is for one year warranty period.</p> <p><b>Estimated Maintenance Costs:</b>          Annual average building maintenance costs are estimated at approximately \$9/SF. Although actual maintenance costs may vary, this estimated cost is based on an industry accepted standard maintenance cost. Currently no new funding source has been identified to fund these maintenance costs.</p>	<p><b>Project Location Map:</b> Council District(s): <input type="checkbox"/> 1 <input type="checkbox"/> 2 <input type="checkbox"/> 3 <input checked="" type="checkbox"/> 4</p> <p><b>CIP Category:</b></p> <input type="checkbox"/> Streets and Highways <input type="checkbox"/> Bridges <input checked="" type="checkbox"/> Buildings <input type="checkbox"/> Drainage <input type="checkbox"/> Electric Utility <input type="checkbox"/> Parks <input type="checkbox"/> Traffic Signals <input type="checkbox"/> Underground Utilities <input type="checkbox"/> Other

<b>Project Title:</b> Cottonwood Park Fire Station	<b>Project Status:</b> <input type="checkbox"/> New <input type="checkbox"/> In Progress <input type="checkbox"/> Completed	<b>Project Priority in CIP Category:</b> <input type="checkbox"/> Essential (Start within 1 yr) <input type="checkbox"/> Necessary (Start within 1 to 3 yrs) <input checked="" type="checkbox"/> Desirable (Start within 3 to 5 yrs) <input type="checkbox"/> Deferrable (Start within 5 to 10 yrs)
<b>Department / Division:</b> Fire Department / Capital Projects Division	<input type="checkbox"/> Deleted <input checked="" type="checkbox"/> On Hold	

**Project Description:**  
The Fire Station 110 project will include land acquisition, design, and construction for an essential facility, along with inspection and project management to oversee the construction phase. The new fire station will be constructed on 1.5 acres.  
This project is deferred due to funding priority. This project was previously funded as Fire Services Capital Projects.

Land Acquisition: \*  
Design: May 2008 to February 2009 - (Partially completed - project on hold)  
Construction: FY 2021/2022 and Beyond

\*Land is currently owned by the former Redevelopment Agency.

**Justification or Significance of Improvement:**  
The station is needed due to residential and commercial development. Response time will be reduced with the new fire station.

**Estimated Maintenance Costs:**  
Annual average building maintenance costs are estimated at approximately \$9/SF. Although actual maintenance costs may vary, this estimated cost is based on an industry accepted standard maintenance cost. Currently no new funding source has been identified to fund these maintenance costs.

**Project Location Map:** Council District(s):  1  2  3  4

<p><b>Project Title:</b> Fire Station 65 Relocation</p> <p><b>Department / Division:</b> Fire Department / Capital Projects Division</p>	<p><b>Project Status:</b></p> <input type="checkbox"/> New <input type="checkbox"/> In Progress <input type="checkbox"/> Completed <input type="checkbox"/> Deleted <input checked="" type="checkbox"/> On Hold	<p><b>Project Priority in CIP Category:</b></p> <input type="checkbox"/> Essential (Start within 1 yr) <input checked="" type="checkbox"/> Necessary (Start within 1 to 3 yrs) <input type="checkbox"/> Desirable (Start within 3 to 5 yrs) <input type="checkbox"/> Deferrable (Start within 5 to 10 yrs)
<p><b>Project Description:</b> The Fire Station 65 Relocation project includes land acquisition, design, and construction of an essential facility. The new fire station will be constructed on a 1.5 acre site, at the northeast corner of Brodiaea Avenue and Rebecca Street. The new fire station will be a standard three apparatus bay fire station.</p> <p>Land Acquisition: Completed in May 2012          Design: Subject to availability of funds          Construction: Subject to availability of funds</p> <p><b>Justification or Significance of Improvement:</b> Fire Station 65 is in need of relocation due to residential and commercial development on the south side of Moreno Valley. Response time will be reduced with the new fire station.</p> <p><b>Estimated Maintenance Costs:</b> Annual average building maintenance costs are estimated at approximately \$9/SF. Although actual maintenance costs may vary, this estimated cost is based on an industry accepted standard maintenance cost. Currently no new funding source has been identified to fund these maintenance costs.</p>	<p><b>Project Location Map:</b> Council District(s): <input checked="" type="checkbox"/> 1 <input type="checkbox"/> 2 <input type="checkbox"/> 3 <input type="checkbox"/> 4</p> <p><b>CIP Category:</b></p> <input type="checkbox"/> Streets and Highways <input type="checkbox"/> Bridges <input checked="" type="checkbox"/> Buildings <input type="checkbox"/> Drainage <input type="checkbox"/> Electric Utility <input type="checkbox"/> Parks <input type="checkbox"/> Traffic Signals <input type="checkbox"/> Underground Utilities <input type="checkbox"/> Other

<p><b>Project Title:</b> March Air Reserve Base Hobby Shop Roof Replacement</p> <p><b>Department / Division:</b> Administrative Services Department / Purchasing &amp; Facilities Division</p>	<p><b>Project Status:</b></p> <input checked="" type="checkbox"/> New <input type="checkbox"/> In Progress <input type="checkbox"/> Completed <input type="checkbox"/> Deleted <input type="checkbox"/> On Hold	<p><b>Project Priority in CIP Category:</b></p> <input type="checkbox"/> Essential (Start within 1 yr) <input type="checkbox"/> Necessary (Start within 1 to 3 yrs) <input checked="" type="checkbox"/> Desirable (Start within 3 to 5 yrs) <input type="checkbox"/> Deferrable (Start within 5 to 10 yrs)
<p><b>Project Description:</b> The City occupies approximately one-third of this building. The March Joint Powers Authority occupies the other two-thirds. The roof was evaluated two years ago and found to be in such disrepair that quotes were obtained to replace it. The cost went beyond the Air Force's budget and repairs were not pursued. The roof is now in such bad shape, it leaks in several locations. Continued roof leaks will cause interior damages which will increase future costs to repair or remodel the building.</p> <p><b>Justification or Significance of Improvement:</b> The roof is significantly deteriorated and leaks in numerous areas. Damage to the interior walls, ceilings and insulation is occurring. This roof needs to be replaced as it is beyond economic repair.</p> <p><b>Estimated Maintenance Costs:</b> Annual average building maintenance costs are estimated at approximately \$9/SF. Although actual maintenance costs may vary, this estimated cost is based on an industry accepted standard maintenance cost. Currently no new funding source has been identified to fund these maintenance costs.</p>	<p><b>Project Location Map:</b></p> <p align="right">Council District(s): <input type="checkbox"/> 1 <input type="checkbox"/> 2 <input type="checkbox"/> 3 <input type="checkbox"/> 4</p> <p><b>CIP Category:</b></p> <input type="checkbox"/> Streets and Highways <input type="checkbox"/> Bridges <input checked="" type="checkbox"/> Buildings <input type="checkbox"/> Drainage <input type="checkbox"/> Electric Utility <input type="checkbox"/> Parks <input type="checkbox"/> Traffic Signals <input type="checkbox"/> Underground Utilities <input type="checkbox"/> Other

<p><b>Project Title:</b> Photovoltaic System for Fire Station 2 and Fire Station 6</p> <p><b>Department / Division:</b> Fire Department / Capital Projects Division</p>	<p><b>Project Status:</b></p> <input checked="" type="checkbox"/> New <input type="checkbox"/> In Progress <input type="checkbox"/> Completed <input type="checkbox"/> Deleted <input type="checkbox"/> On Hold	<p><b>Project Priority in CIP Category:</b></p> <input type="checkbox"/> Essential (Start within 1 yr) <input checked="" type="checkbox"/> Necessary (Start within 1 to 3 yrs) <input type="checkbox"/> Desirable (Start within 3 to 5 yrs) <input type="checkbox"/> Deferrable (Start within 5 to 10 yrs)
<p><b>Project Description:</b> This project will construct the Photovoltaic (Solar Energy) Systems at Fire Station 2 and Fire Station 6. An analysis was conducted and it was determined that the fire station with solar power is saving approximately 66% on electric utility costs. It is cost effective to install solar panels for electricity and potentially for water heating.</p> <p><b>Justification or Significance of Improvement:</b> The project will install solar panels for electricity at Fire Station 2 and Fire Station 6. Estimated saving is 66% on the electric utility cost. Annual average building maintenance costs are estimated at approximately \$10 per square foot.</p> <p><b>Estimated Maintenance Costs:</b> Annual average maintenance cost is estimated at \$1,000/system. Actual maintenance costs may vary, as these estimated maintenance costs are based on historical maintenance costs for City buildings. Currently no new funding source has been identified to fund these maintenance costs. Additional costs may also be incurred for specialized equipment.</p>	<p><b>Project Location Map:</b> Council District(s): <input checked="" type="checkbox"/> 1 <input type="checkbox"/> 2 <input type="checkbox"/> 3 <input type="checkbox"/> 4</p>  <p><b>CIP Category:</b></p> <input type="checkbox"/> Streets and Highways <input type="checkbox"/> Bridges <input checked="" type="checkbox"/> Buildings <input type="checkbox"/> Drainage <input type="checkbox"/> Electric Utility <input type="checkbox"/> Parks <input type="checkbox"/> Traffic Signals <input type="checkbox"/> Underground Utilities <input type="checkbox"/> Other

<b>Project Title:</b> Flaming Arrow Drive Storm Drain (Sunnymead MDP Line M-11 Extension)	<b>Project Status:</b> <input type="checkbox"/> New <input checked="" type="checkbox"/> In Progress <input type="checkbox"/> Completed	<b>Project Priority in CIP Category:</b> <input checked="" type="checkbox"/> Essential (Start within 1 yr) <input type="checkbox"/> Necessary (Start within 1 to 3 yrs) <input type="checkbox"/> Desirable (Start within 3 to 5 yrs) <input type="checkbox"/> Deferrable (Start within 5 to 10 yrs)
<b>Department / Division:</b> Public Works Department / Capital Projects Division		

**Project Description:**  
This project will install a storm drain system in Flaming Arrow Drive and Sweet Grass Drive, between Saint Christopher Lane and Bay Avenue. The purpose is to convey storm water to the existing Sunnymead Master Drainage Plan (MDP) Line M-11 in Bay Avenue. Riverside County Flood Control and Water Conservation District (RCFC&WCD) has estimated approximately \$320,000 for the project and is performing design. The City will secure necessary rights of way. The City and RCFC&WCD will enter into a Cooperative Agreement for funding. It is estimated approximately 1200 LF of 24" to 42" diameter pipe will be installed.  
Preliminary Engineering / Environmental: July 2016 to May 2017  
Design and Right of Way: June 2017 to December 2017  
Construction: June 2018 to December 2018 (Subject to available funding)

**Justification or Significance of Improvement:**  
This project will provide necessary drainage improvements and mitigate flooding hazards for the area with a protection level up to 100-year storm. This project is part of the MDP for the area.

**Project Location Map:**

Council District(s):  1  2  3  4

**CIP Category:**  
 Streets and Highways  
 Drainage  
 Electric Utility  
 Parks  
 Buildings  
 Traffic Signals  
 Underground Utilities  
 Other

**Estimated Maintenance Costs:**  
Annual average costs associated with storm drain maintenance are estimated at approximately \$121 per catch basin. This does not include actual catch basin and/or pipeline replacement, which typically have lifespans of 70 to 100 years. Although actual maintenance costs may vary, these estimated maintenance costs are based on historical maintenance costs for the City of Moreno Valley's storm drain infrastructure. Currently no new funding source has been identified to fund these maintenance costs. RCFC&WCD will maintain pipes larger than 36".

<b>Project Title:</b> Heacock Street Channel Improvements  <b>Department / Division:</b> Public Works Department / Capital Projects Division		<b>Project Status:</b> <input type="checkbox"/> New <input checked="" type="checkbox"/> In Progress <input type="checkbox"/> Completed	<input type="checkbox"/> Deleted <input type="checkbox"/> On Hold	<b>Project Priority in CIP Category:</b> <input checked="" type="checkbox"/> Essential (Start within 1 yr) <input type="checkbox"/> Necessary (Start within 1 to 3 yrs) <input type="checkbox"/> Desirable (Start within 3 to 5 yrs) <input type="checkbox"/> Deferrable (Start within 5 to 10 yrs)
--	---	---	--	---

**Project Description:**  
 The project is a multi-jurisdictional effort amongst March Joint Powers Authority (MJPA), Riverside County Flood Control & Water Conservation District (RCFC&WCD), March Air Reserve Base (MARB) and the City of Moreno Valley (COMV). The project consists of 3 phases of improvements along Heacock Channel: Phase 1 extends between Cactus Avenue and 3,500 feet south of Cactus Avenue. This section is in MJPA's property; Phase 2 extends the improvements from end of Phase 1 to approximately 6,600 feet south of Cactus Avenue. This section is in COMV's property; Phase 3 extends from end of Phase 2 to Perris Valley Storm Drain (PVSD) Lateral A bridge. This section is in MARB's property. The City of Moreno Valley participates in funding the cost of environmental clearance, and engineering design for the Heacock Channel Project. MJPA takes the lead in administrating the project in environmental clearance and design phase. RCF&WCD participates in funding the cost of construction of Phases 1 & 2, and constructs all phases of the project. MARB participates in funding the cost of construction of Phase 3. The construction cost for all three phases is estimated between \$18 and \$20 million.  
 Design: Completed March 2017  
 Advertise and Award: April 2017 to June 2017  
 Construction: July 2017 to March 2018

**Justification or Significance of Improvement:** This project provides improved drainage in the area and reduces flooding potential to approximately 120 properties valued at \$15 million and Heacock roadway and utilities valued at \$20 million. \$1,250,000 in Area Drainage Plan Fees paid to the District was granted to the City. This amount is used as City's funding for environmental clearance and engineering design.

**Estimated Maintenance Costs:** The Riverside County Flood & Water Conservation District will maintain the channel upon project completion.

--	--	---

**Project Description:**  
This project is to install storm drain line B-16 in Kitching Street from Ironwood Avenue to Kalmia Avenue. It is estimated that approximately 2,900 lineal feet of 24 inch to 36 inch diameter pipe will be installed. Riverside County Flood Control and Water Conservation District (RCFC&WCD) has estimated \$1.5 Million for the project and is performing the design. The City will secure the necessary right of way. RCFC&WCD will enter into a cooperative agreement with the City for scope of work and financial responsibilities.

Design: July 2017 to June 2018  
 Right of Way: July 2017 to June 2018  
 Construction: September 2018 to June 2019

**Justification or Significance of Improvement:**  
This project will assist in eliminating flooding along Kitching Street and surrounding areas.

**Estimated Maintenance Costs:**  
Annual average costs associated with storm drain maintenance are estimated at approximately \$121 per catch basin. This does not include actual catch basin and/or pipeline replacement, which typically have lifespans of 70 to 100 years. Although actual maintenance costs may vary, these estimated maintenance costs are based on historical maintenance costs for the City of Moreno Valley's storm drain infrastructure. --	--	--

**Project Description:**  
This project will install a storm drain system in Locust Avenue, Carrie Lane, Kalmia Avenue, and Pettit Street to mitigate flooding for the San Timoteo Foothill Neighborhood area. The project received Federal Hazard Mitigation Grant Program (HMGP-DR 1810) funds, which will pay up to 75% of the project's cost. Riverside County Flood Control provided Area Drainage Plan (ADP) fees as the local match funds for the Project.

Design: Completed June 2017  
Advertise/Award: July 2017 to September 2017  
Construction: October 2017 to May 2018

**Justification or Significance of Improvement:** This project will provide necessary drainage improvements and mitigate flooding hazards for the area with a protection level up to 100-year storm. This project is part of the Moreno Master Drainage Plan (MDP) for the area.

**Estimated Maintenance Costs:** Annual average costs associated with storm drain maintenance are estimated at approximately \$121 per catch basin. This does not include actual catch basin and/or pipeline replacement, which typically have lifespans of 70 to 100 years. <b>Project Title:</b> Storm Drain Line H-2 Interim Facility	<b>Project Status:</b> <input checked="" type="checkbox"/> New <input type="checkbox"/> In Progress <input type="checkbox"/> Completed <input type="checkbox"/> Deleted <input type="checkbox"/> On Hold	<b>Project Priority in CIP Category:</b> <input checked="" type="checkbox"/> Essential (Start within 1 yr) <input type="checkbox"/> Necessary (Start within 1 to 3 yrs) <input type="checkbox"/> Desirable (Start within 3 to 5 yrs) <input type="checkbox"/> Deferrable (Start within 5 to 10 yrs)
<b>Department / Division:</b> Public Works Department / Capital Projects Division		

**Project Description:**  
This project consists of an interim facility to handle existing high flows that channel through an existing church parking lot. Design and construction will be partially reimbursable with Riverside County Flood Control and Water Conservation District (RCFC&WCD) funds. RCFC&WCD has budgeted approximately \$315,000 for design and construction. FY 17/18 request is to secure the needed right of way.

**Justification or Significance of Improvement:**  
The project falls within the Moreno Master Drainage Plan area. Area developments are not yet in place, therefore, interim improvements are needed to slow or divert high flows. RCFC&WCD will design the project and City will secure any needed right of way.

**Estimated Maintenance Costs:**  
Annual average costs associated with storm drain maintenance are estimated at approximately \$121 per catch basin. This does not include actual catch basin and/or pipeline replacement, which typically have lifespans of 70 to 100 years. Although actual maintenance costs may vary, these estimated maintenance costs are based on historical maintenance costs for the City of Moreno Valley's storm drain infrastructure. Currently no new funding source has been identified to fund these maintenance costs.

**Project Location Map:** Council District(s):  1  2  3  4

**CIP Category:**  
 Streets and Highways  
 Bridges  
 Buildings  
 Drainage  
 Electric Utility  
 Parks

<p><b>Project Title:</b> Sunnymead Master Drainage Plan - Storm Drain Lines F and F-7</p> <p><b>Department / Division:</b> Public Works Department / Capital Projects Division</p> <p><b>Project Description:</b> The project involves the design of Line F and Line F-7 storm drain system in the Sunnymead Master Drainage Plan. Line F includes 1,400 feet of storm drain starting from Hemlock Avenue east of Pigeon Pass Road, going south past SR-60 and Sunnymead Boulevard, to approximately 100 feet south of Sunnymead Boulevard. The lateral (Line F-7) storm drain of 1,400 feet starting from the intersection of Hemlock Avenue and Graham Street to the west will be connected to Line F in Hemlock Avenue. The construction is subject to funding availability.</p> <p>Design: November 2014 to December 2017          Advise/Award: TBD (Subject to available funding)          Construction: TBD (Subject to available funding)</p> <p><b>Justification or Significance of Improvement:</b> The project is located within CDBG target area and will mitigate flooding that occurs in the vicinity of Hemlock Avenue, Graham Street, Sunnymead Boulevard and areas south of Sunnymead Boulevard and will minimize flood related damages to public facilities and private properties.</p> <p><b>Estimated Maintenance Costs:</b> Annual average costs associated with storm drain maintenance are estimated at approximately \$121 per catch basin. This does not include actual catch basin and/or pipeline replacement, which typically have lifespans of 70 to 100 years. <p><b>Project Title:</b> Storm Drain Line GG, Edgemont / Old 215 Frontage Road to Day Street</p> <p><b>Department / Division:</b> Public Works Department / Capital Projects Division</p>	<p><b>Project Status:</b></p> <input checked="" type="checkbox"/> New <input type="checkbox"/> In Progress <input type="checkbox"/> Completed <input type="checkbox"/> Deleted <input type="checkbox"/> On Hold	<p><b>Project Priority in CIP Category:</b></p> <input type="checkbox"/> Essential (Start within 1 yr) <input type="checkbox"/> Necessary (Start within 1 to 3 yrs) <input type="checkbox"/> Desirable (Start within 3 to 5 yrs) <input checked="" type="checkbox"/> Deferrable (Start within 5 to 10 yrs)
<p><b>Project Description:</b> This project involves the design and construction of storm drain, Line GG, in the West End Area Master Drainage. The proposed storm drain will begin at the intersection of Sherman Avenue and Day Street and then go west parallel with Alessandro Boulevard to its terminus at Old 215 Frontage Road . The project will provide flood protection up to the 100-year storm event for the area.</p> <p><b>Justification or Significance of Improvement:</b> This project will provide improved drainage in the area and reduce flooding potential.</p> <p><b>Estimated Maintenance Costs:</b> Annual average costs associated with storm drain maintenance are estimated at approximately \$121 per catch basin. This does not include actual catch basin and/or pipeline replacement, which typically has have a lifespans of 70 to 100 years. Although actual maintenance costs may vary, these estimated maintenance costs are based on historical maintenance costs for the City of Moreno Valley's storm drain infrastructure. **FY 2017-2022 and Beyond**

<p><b>Project Title:</b> Storm Drain Line K-1 from Line K, Running East in Ironwood Avenue to 400' West of Pettit Street</p> <p><b>Department / Division:</b> Public Works Department / Capital Projects Division</p>	<p><b>Project Status:</b></p> <input type="checkbox"/> New <input type="checkbox"/> In Progress <input type="checkbox"/> Completed <input type="checkbox"/> Deleted <input checked="" type="checkbox"/> On Hold	<p><b>Project Priority in CIP Category:</b></p> <input type="checkbox"/> Essential (Start within 1 yr) <input checked="" type="checkbox"/> Necessary (Start within 1 to 3 yrs) <input type="checkbox"/> Desirable (Start within 3 to 5 yrs) <input type="checkbox"/> Deferrable (Start within 5 to 10 yrs)
<p><b>Project Description:</b>          This project consists of the construction of a storm drain pipe along Ironwood Avenue to handle the 100-year flow. Design and right-of-way were completed as part of the SR-60 / Moreno Beach Interchange Project. Construction may be reimbursable with FEMA and/or Riverside County Flood Control &amp; Water Conservation District (RCFC&amp;WCD) Area Drainage Plan (ADP) funds.</p> <p><b>Justification or Significance of Improvement:</b>          This project is part of the Moreno Master Drainage Plan (MDP) for the area. The City designed the storm drain in conjunction with the SR-60 / Moreno Beach Interchange improvements, because it relieves drainage under the SR-60 as conditioned by Caltrans and diverts it to the Nason Basin as planned in the MDP. Caltrans requires the storm drain to be complete before the interchange is complete. The project is eligible for FEMA funds, which were applied for in June 2016 with expected response by May 2017. FEMA funds would provide 75% of the construction cost.</p> <p><b>Estimated Maintenance Costs:</b>          Annual average costs associated with storm drain maintenance are estimated at approximately \$121 per catch basin. This does not include actual catch basin and/or pipeline replacement, which typically have lifespans of 70 to 100 years. Although actual maintenance costs may vary, these estimated maintenance costs are based on historical maintenance costs for the City of Moreno Valley's storm drain infrastructure. Currently no new funding source has been identified to fund these maintenance costs. RCFC &amp; WCD will fund maintenance of the pipelines.</p>	<p><b>Project Location Map:</b> Council District(s): <input type="checkbox"/> 1 <input checked="" type="checkbox"/> 2 <input type="checkbox"/> 3 <input type="checkbox"/> 4</p> <p><b>CIP Category:</b></p> <input type="checkbox"/> Streets and Highways <input type="checkbox"/> Bridges <input type="checkbox"/> Buildings <input checked="" type="checkbox"/> Drainage <input type="checkbox"/> Electric Utility <input type="checkbox"/> Parks <input type="checkbox"/> Traffic Signals <input type="checkbox"/> Underground Utilities <input type="checkbox"/> Other

<p><b>Project Title:</b> SR-60 Culvert Crossing Tie-ins between Indian Street and SR-60 Perris Boulevard Off-Ramp</p> <p><b>Department / Division:</b> Public Works Department / Capital Projects Division</p>	<p><b>Project Status:</b></p> <input checked="" type="checkbox"/> New <input type="checkbox"/> In Progress <input type="checkbox"/> Completed <input type="checkbox"/> Deleted <input type="checkbox"/> On Hold	<p><b>Project Priority in CIP Category:</b></p> <input type="checkbox"/> Essential (Start within 1 yr) <input type="checkbox"/> Necessary (Start within 1 to 3 yrs) <input checked="" type="checkbox"/> Desirable (Start within 3 to 5 yrs) <input type="checkbox"/> Deferrable (Start within 5 to 10 yrs)
--	---	---

**Project Description:**  
 This project proposes to install storm drain connectors to tie-in the existing SR-60 culvert crossing outlets on the south side of the freeway between Indian Street and SR-60 / Perris Boulevard off-ramp to the storm drain line along Sunnymead Boulevard (which is presented in a separate CIP form as a project). The existing culvert outlets are located behind private property businesses and storm water currently sheet flows across their parking lots / properties in a southerly direction to Sunnymead Boulevard. During heavy downpours, these private properties flood and access becomes problematic. In order to install these storm drain connectors within the private properties, construction and permanent maintenance access easements will need to be acquired. Furthermore, the proposed storm drain line extension from Line H along Sunnymead Boulevard east of Indian Street must be constructed before these connectors through private property can be constructed.

**Justification or Significance of Improvement:**  
 This project will provide improved drainage within private properties in the area and reduce flooding potential.

**Estimated Maintenance Costs:**  
 Annual average costs associated with storm drain maintenance are estimated at approximately \$121 per catch basin. This does not include actual catch basin and/or pipeline replacement, which typically have lifespans of 70 to 100 years. Although actual maintenance costs may vary, these estimated maintenance costs are based on historical maintenance costs for the City of Moreno Valley's storm drain infrastructure. Currently no new funding source has been identified to fund these maintenance costs.

<p><b>Project Title:</b> Kitching Substation Feeder Line - Channel 12kV</p> <p><b>Department / Division:</b> Financial and Management Services Department / Electric Utility Division</p>	<p><b>Project Status:</b></p> <input type="checkbox"/> New <input type="checkbox"/> In Progress <input checked="" type="checkbox"/> Completed <input type="checkbox"/> Deleted <input type="checkbox"/> On Hold	<p><b>Project Priority in CIP Category:</b></p> <input checked="" type="checkbox"/> Essential (Start within 1 yr) <input type="checkbox"/> Necessary (Start within 1 to 3 yrs) <input type="checkbox"/> Desirable (Start within 3 to 5 yrs) <input type="checkbox"/> Deferrable (Start within 5 to 10 yrs)
<p><b>Project Description:</b>          This project is installing a new circuit. The route goes north from the Kitching Substation, crosses the Perris Valley Storm Drain channel at Kitching Street, proceeds east through El Potrero Park, adds conduit to a pedestrian bridge, and connects with the conduit stub located north of the Lasselle Sports Park parking lot.</p> <p>Design: Completed          Construction: November 2016 to April 2017</p> <p><b>Justification or Significance of Improvement:</b>          This backbone installation will be part of integrating the new substation in the electrical system. The new substation will support future growth in the South Industrial Area, provide relief for the Moreno Valley Substation, and provide additional reliability and flexibility for the entire system.</p> <p><b>Estimated Maintenance Costs:</b>          Ongoing maintenance costs are built into Moreno Valley Utility's rate structure as part of the cost to serve.</p>	<p><b>Project Location Map:</b> Council District(s): <input type="checkbox"/> 1 <input type="checkbox"/> 2 <input type="checkbox"/> 3 <input checked="" type="checkbox"/> 4</p> <p><b>CIP Category:</b></p> <input type="checkbox"/> Streets and Highways <input type="checkbox"/> Bridges <input type="checkbox"/> Buildings <input type="checkbox"/> Drainage <input checked="" type="checkbox"/> Electric Utility <input type="checkbox"/> Parks <input type="checkbox"/> Traffic Signals <input type="checkbox"/> Underground Utilities <input type="checkbox"/> Other

<p><b>Project Title:</b> Kitching Substation Feeder Line - San Michele 12kV</p> <p><b>Department / Division:</b> Financial and Management Services Department / Electric Utility Division</p>	<p><b>Project Status:</b></p> <input type="checkbox"/> New <input checked="" type="checkbox"/> In Progress <input type="checkbox"/> Completed <input type="checkbox"/> Deleted <input type="checkbox"/> On Hold	<p><b>Project Priority in CIP Category:</b></p> <input checked="" type="checkbox"/> Essential (Start within 1 yr) <input type="checkbox"/> Necessary (Start within 1 to 3 yrs) <input type="checkbox"/> Desirable (Start within 3 to 5 yrs) <input type="checkbox"/> Deferrable (Start within 5 to 10 yrs)
<p><b>Project Description:</b> This project will extend a new circuit from Kitching Substation, south on Kitching Street to Industrial Building south side of Globe Street, utilizing a portion of existing conduit system. This will allow load transfer from Globe interconnect to Kitching Substation.</p> <p>Design: Completed Construction: April 2017 to July 2017</p> <p><b>Justification or Significance of Improvement:</b> This backbone installation will be part of integrating the Kitching Substation in the electrical system. The Kitching Substation will support future growth in the South Industrial Area, provide relief for the Moreno Valley Substation, and provide additional reliability and flexibility for the entire system.</p> <p><b>Estimated Maintenance Costs:</b> Ongoing maintenance costs are built into Moreno Valley Utility's rate structure as part of the cost to serve.</p>	<p><b>Project Location Map:</b> Council District(s): <input type="checkbox"/> 1 <input type="checkbox"/> 2 <input type="checkbox"/> 3 <input checked="" type="checkbox"/> 4</p> <p><b>CIP Category:</b></p> <input type="checkbox"/> Streets and Highways <input type="checkbox"/> Bridges <input type="checkbox"/> Buildings <input type="checkbox"/> Drainage <input checked="" type="checkbox"/> Electric Utility <input type="checkbox"/> Parks <input type="checkbox"/> Traffic Signals <input type="checkbox"/> Underground Utilities <input type="checkbox"/> Other

<p><b>Project Description:</b> Replace the lumber constructed irrigation pump shack, the irrigation controllers, and the drain line.</p> <p><b>Justification or Significance of Improvement:</b> The pump shack has deteriorated over several decades and needs replacement to safety house the golf center's irrigation pump and electrical. The irrigation controllers are obsolete and have problems with circuitry. The replacement will be "smart controllers". About one-third of the broken drain line was replaced several years ago. The rest of the drain line has degraded to the point of needing replacement.</p> <p>Project Timeline: September 2017 - June 2019</p> <p><b>Estimated Maintenance Costs:</b> Park maintenance costs average approximately \$12,000 per acre per year based on budget information provided by the Parks Maintenance Division. Actual maintenance costs may vary depending on the size and amenities of the site. Currently no new funding source has been identified to fund costs associated with future replacements needed due to normal use.</p>	<p><b>Project Location Map:</b> Council District(s): <input checked="" type="checkbox"/> 1 <input type="checkbox"/> 2 <input type="checkbox"/> 3 <input type="checkbox"/> 4</p> <p><b>CIP Category:</b></p> <input type="checkbox"/> Streets and Highways <input type="checkbox"/> Bridges <input type="checkbox"/> Buildings <input type="checkbox"/> Drainage <input type="checkbox"/> Electric Utility <input checked="" type="checkbox"/> Parks <input type="checkbox"/> Traffic Signals <input type="checkbox"/> Underground Utilities <input type="checkbox"/> Other

<p><b>Project Title:</b> Fairway Park (Skate Park Addition)</p> <p><b>Department / Division:</b> Parks &amp; Community Services Department / Administration Division</p>	<p><b>Project Status:</b></p> <input type="checkbox"/> New <input checked="" type="checkbox"/> In Progress <input type="checkbox"/> Completed <input type="checkbox"/> Deleted <input type="checkbox"/> On Hold	<p><b>Project Priority in CIP Category:</b></p> <input checked="" type="checkbox"/> Essential (Start within 1 yr) <input type="checkbox"/> Necessary (Start within 1 to 3 yrs) <input type="checkbox"/> Desirable (Start within 3 to 5 yrs) <input type="checkbox"/> Deferrable (Start within 5 to 10 yrs)
<p><b>Project Description:</b> This project will install concrete and fencing for the placement of City owned skate ramps at Fairway Park. The project includes minimal grading, concrete slab, and chain link fencing at Fairway. Skate park additions may be added to other park sites in the future.</p> <p>Construction: July 2017 to June 2018</p> <p><b>Justification or Significance of Improvement:</b> The skate wave system, consisting of skate ramps and other skate features, was donated to the City. A skate park addition would provide recreational activity for youth in the community.</p> <p><b>Estimated Maintenance Costs:</b> Park maintenance costs average approximately \$12,000 per acre per year based on budget information provided by the Parks Maintenance Division. Actual maintenance costs may vary depending on the size and amenities of the site. Currently no new funding source has been identified to fund costs associated with future replacements needed due to normal use.</p>	<p><b>Project Location Map:</b> Council District(s): <input type="checkbox"/> 1 <input type="checkbox"/> 2 <input type="checkbox"/> 3 <input checked="" type="checkbox"/> 4</p> <p><b>CIP Category:</b></p> <input type="checkbox"/> Streets and Highways <input type="checkbox"/> Bridges <input type="checkbox"/> Buildings <input type="checkbox"/> Drainage <input type="checkbox"/> Electric Utility <input checked="" type="checkbox"/> Parks <input type="checkbox"/> Traffic Signals <input type="checkbox"/> Underground Utilities <input type="checkbox"/> Other

<p><b>Project Title:</b> Gateway Park Swing Set</p> <p><b>Department / Division:</b> Parks &amp; Community Services / Administration Division</p>	<p><b>Project Status:</b></p> <p><input checked="" type="checkbox"/> New      <input type="checkbox"/> Deleted</p> <p><input type="checkbox"/> In Progress      <input type="checkbox"/> On Hold</p> <p><input type="checkbox"/> Completed</p>	<p><b>Project Priority in CIP Category:</b></p> <p><input checked="" type="checkbox"/> Essential (Start within 1 yr)</p> <p><input type="checkbox"/> Necessary (Start within 1 to 3 yrs)</p> <p><input type="checkbox"/> Desirable (Start within 3 to 5 yrs)</p> <p><input type="checkbox"/> Deferrable (Start within 5 to 10 yrs)</p>
---	--	--

**Project Description:**  
Installation of a four-bay swing set at Gateway Park. The project will include the swing set, excavation, grading, concrete work, and safety surfacing.

**Justification or Significance of Improvement:**  
Gateway Park has a small play structure without a swing set. There is not another park in close proximity that has one. Residents have expressed their desire to have this amenity installed, to enhance the playground. There is space directly adjacent to the play structure that can be used.  
Estimated completion date: Winter 2018

**Estimated Maintenance Costs:**  
Park maintenance costs average approximately \$12,000 per acre per year based on budget information provided by the Parks Maintenance Division. Actual maintenance costs may vary depending on the size and amenities of the site. Currently no new funding source has been identified to fund costs associated with future replacements needed due to normal use.

<p><b>Project Title:</b> Shadow Mountain Park Play Equipment</p> <p><b>Department / Division:</b> Parks &amp; Community Services Department / Administration Division</p>	<p><b>Project Status:</b></p> <p><input type="checkbox"/> New      <input type="checkbox"/> Deleted</p> <p><input checked="" type="checkbox"/> In Progress      <input type="checkbox"/> On Hold</p> <p><input type="checkbox"/> Completed</p>	<p><b>Project Priority in CIP Category:</b></p> <p><input checked="" type="checkbox"/> Essential (Start within 1 yr)</p> <p><input type="checkbox"/> Necessary (Start within 1 to 3 yrs)</p> <p><input type="checkbox"/> Desirable (Start within 3 to 5 yrs)</p> <p><input type="checkbox"/> Deferrable (Start within 5 to 10 yrs)</p>
<p><b>Project Description:</b> This project will design and install the City's first all-inclusive play equipment and related appurtenances at Shadow Mountain Park. The Annual ADA Park Improvements project will provide supplemental funding for the ADA-related improvements.</p> <p>Design: January 2016 to July 2016 Construction: June 2017 - Phase I Construction: July 2017 to December 2017 - Phase II</p> <p><b>Justification or Significance of Improvement:</b> This park is extensively used for athletic games and by walkers and joggers. The addition of play equipment at this site will provide activity for the children.</p> <p><b>Estimated Maintenance Costs:</b> Park maintenance costs average approximately \$12,000 per acre per year based on budget information provided by the Parks Maintenance Division. Actual maintenance costs may vary depending on the size and amenities of the site. Currently no new funding source has been identified to fund costs associated with future replacements needed due to normal use.</p>	<p><b>Project Location Map:</b> Council District(s): <input type="checkbox"/> 1 <input checked="" type="checkbox"/> 2 <input type="checkbox"/> 3 <input type="checkbox"/> 4</p> <p><b>CIP Category:</b></p> <p><input type="checkbox"/> Streets and Highways      <input type="checkbox"/> Drainage      <input type="checkbox"/> Traffic Signals</p> <p><input type="checkbox"/> Bridges      <input type="checkbox"/> Electric Utility      <input type="checkbox"/> Underground Utilities</p> <p><input type="checkbox"/> Buildings      <input checked="" type="checkbox"/> Parks      <input type="checkbox"/> Other</p>

<p><b>Project Description:</b> The City is required to have an annual program in place to upgrade non-compliant Americans with Disabilities Act (ADA) facilities. This project upgrades existing non-ADA compliant facilities (restrooms), park and parking lot ramps, and sidewalks throughout City parks. The work will be consistent with the City's ADA Transition Plan (required by law).</p> <p>Project Schedule: Ongoing</p> <p><b>Justification or Significance of Improvement:</b> Cities are required by Federal and State Law to have an ADA Transition Plan, consisting of plans and schedules to upgrade facilities (restrooms), park/parking lot ramps, and sidewalks to ADA specifications. Upgrading these items will enhance usage for people with physical disabilities and other pedestrians.</p> <p><b>Estimated Maintenance Costs:</b> Park maintenance costs average approximately \$12,000 per acre per year based on budget information provided by the Parks Maintenance Division. Actual maintenance costs may vary depending on the size and amenities of the site. <p><b>Project Title:</b> Aqueduct Bike Trail Security Lights and Landscaping</p> <p><b>Department / Division:</b> Parks &amp; Community Services Department / Admin Division</p>	<p><b>Project Status:</b></p> <input checked="" type="checkbox"/> New <input type="checkbox"/> In Progress <input type="checkbox"/> Completed <input type="checkbox"/> Deleted <input type="checkbox"/> On Hold	<p><b>Project Priority in CIP Category:</b></p> <input type="checkbox"/> Essential (Start within 1 yr) <input type="checkbox"/> Necessary (Start within 1 to 3 yrs) <input type="checkbox"/> Desirable (Start within 3 to 5 yrs) <input checked="" type="checkbox"/> Deferrable (Start within 5 to 10 yrs)
--	---	---

**Project Description:**  
 This project will install security lighting and landscaping along the following Aqueduct Bikeways:  
 1.) Pan Am - Cottonwood,  
 2.) Bay Ave. - Graham,  
 3.) JFK - Delphinium,  
 4.) Cactus (southside) / Heacock (eastside) - Unity Ct.,  
 5.) Kitching - Camino Bellagio.

The lighting envisioned is possibly pulse start metal halide; however, as technology improves, the City may consider solar energy. To date, solar lighting is expensive and utilizes large solar panels, which are not vandal resistant.

**Justification or Significance of Improvement:**  
 The purpose of this project is to enhance these bikeways and provide safety to users. Lighting is needed.

**Estimated Maintenance Costs:**  
 Trail maintenance costs average approximately \$4,000 per acre per year based on budget information provided by the Parks Maintenance Division. Actual maintenance costs may vary depending on the size and amenities of the site. Currently no new funding source has been identified to fund costs associated with future replacements needed due to normal use.

**Project Location Map:** Council District(s):  1  2  3  4

<p><b>Project Title:</b> Cottonwood Golf Center Parking Lot</p> <p><b>Department / Division:</b> Parks &amp; Community Services Department / Admin Division</p>	<p><b>Project Status:</b></p> <input checked="" type="checkbox"/> New <input type="checkbox"/> In Progress <input type="checkbox"/> Completed <input type="checkbox"/> Deleted <input type="checkbox"/> On Hold	<p><b>Project Priority in CIP Category:</b></p> <input type="checkbox"/> Essential (Start within 1 yr) <input type="checkbox"/> Necessary (Start within 1 to 3 yrs) <input type="checkbox"/> Desirable (Start within 3 to 5 yrs) <input checked="" type="checkbox"/> Deferrable (Start within 5 to 10 yrs)
---	--	---

**Project Description:**  
This project involves the repairing and striping of the Cottonwood Golf Course parking lot, adding planters, and adding lighting.

**Justification or Significance of Improvement:**  
Approximately 10 years ago, this parking lot was capped as a temporary fix. At that time the asphalt was in poor condition. Time and the elements of nature have taken its toll on the parking lot, necessitating its replacement. Lighting does not meet parks foot candle standards. Since the remodel of the center, rentals have increased. The facility now needs a parking lot upgrade to restore the decaying pavement provide shade for vehicles, and fix substandard lighting.

**Estimated Maintenance Costs:**  
Parking lot maintenance costs are estimated \$3,500 per acre per year based on budget information provided by the Parks Maintenance Division. Actual maintenance costs may vary depending on the size and amenities of the site. Currently no new funding source has been identified to fund costs associated with future replacements needed due to normal use.

--	--	---

**Project Description:**  
This project will install or upgrade security cameras at various parks and facilities.

Upgrade the systems at Towngate Community Center, Senior Center, Conference and Recreation Center. They will be linked into the Citywide camera system.

**Justification or Significance of Improvement:**  
Security cameras will monitor and document vandalism and illegal activity at various parks and facilities. The camera system will assist the Park Rangers in recording activities at these parks.

**Estimated Maintenance Costs:**  
Park maintenance costs average approximately \$12,000 per acre per year based on budget information provided by the Parks Maintenance Division. Actual maintenance costs may vary depending on the size and amenities of the site. Annual average building maintenance costs are estimated at approximately \$9/SF. Although actual maintenance costs may vary, this estimated cost is based on an industry accepted standard maintenance cost. Currently no new funding source has been identified to fund costs associated with future replacements needed due to normal use.

---	--	---

**Project Description:**  
The Morrison Park extension project will include the development of approximately 6.5 acres of parkland. Planned amenities include a tot lot, passive turf area, additional parking, open space, and possibly batting cages.

**Justification or Significance of Improvement:**  
The community around Morrison Park has grown over the past few years. DIF funds collected will pay for improvements and satisfy some of the recreational needs of the community.

**Estimated Maintenance Costs:**  
Park maintenance costs average approximately \$12,000 per acre per year based on budget information provided by the Parks Maintenance Division. Actual maintenance costs may vary depending on the size and amenities of the site. Currently no new funding source has been identified to fund costs associated with future replacements needed due to normal use.

**Project Location Map:** Council District(s):  1  2  3  4

--	---	---

**Project Description:**  
The walkways and outdoor exercise equipment installed at Towngate Park are extensively utilized by fitness-minded residents. Shadow Mountain Park, and Cold Creek Trail are used frequently by walkers and joggers. The addition of outdoor exercise equipment at Shadow Mountain Park and Cold Creek Trail will provide residents additional means for exercise.

**Justification or Significance of Improvement:**  
This project will install outdoor exercise equipment in order to provide residents with additional means for exercise.

**Estimated Maintenance Costs:**  
Park maintenance costs average approximately \$12,000 per acre per year based on budget information provided by the Parks Maintenance Division. Actual maintenance costs may vary depending on the size and amenities of the site. Currently no new funding source has been identified to fund costs associated with future replacements needed due to normal use.

--	---	---

**Project Description:**  
 This project includes the deployment of critical field devices and supporting communications system as a part of the City's Traffic Management System. Improvements include an ethernet fiber-optic backbone system, closed circuit television (CCTV) cameras at 32 key intersections, and new traffic signal controllers at 45 existing signalized intersections.

Receive Caltrans Authorization: March 2017  
 Complete Design: October 2017  
 Complete Construction: June 2018

**Justification or Significance of Improvement:**  
 The City received \$1.54 million Congestion Mitigation and Air Quality (CMAQ) Federal funding and \$490,000 Mobile Source Air Pollution Reduction Committee (MSRC) from the Riverside County Transportation Commission (RCTC) 2013 Multi-funding Call for Projects to construct this critical phase of the City's Master Plan.

**Estimated Maintenance Costs:**  
 The budget is largely being used to replace outdated traffic control equipment and therefore should reduce ongoing maintenance costs. Maintenance of traffic control equipment is funded by the operating budget. Maintenance cost of fiber optic communication media and equipment is expected to cost \$4,000 per mile per annum. The cost to maintain CCTV cameras is projected to be \$500 per camera per annum. Currently no new funding source has been identified to fund these maintenance costs.

**CITY OF MORENO VALLEY  
Capital Improvement Plan - Project Details  
FY 2017-2022 and Beyond**

<b>Project Title:</b> Pigeon Pass Road ITS  <b>Department / Division:</b> Public Work Department / Transportation Engineering Division	<b>Project Status:</b> <input checked="" type="checkbox"/> New <input type="checkbox"/> In Progress <input type="checkbox"/> Completed <input type="checkbox"/> Deleted <input type="checkbox"/> On Hold	<b>Project Priority in CIP Category:</b> <input checked="" type="checkbox"/> Essential (Start within 1 yr) <input type="checkbox"/> Necessary (Start within 1 to 3 yrs) <input type="checkbox"/> Desirable (Start within 3 to 5 yrs) <input type="checkbox"/> Deferrable (Start within 5 to 10 yrs)
--	---	---

**Project Description:**  
 The project will retrofit five signalized intersections with Intelligent Transportation Systems (ITS) equipment, including new fiber optic cable, closed circuit television (CCTV) cameras, and new controller cabinets, to allow for remote monitoring and control from the City's Transportation Management Center.

PE/Environmental: July 2017 to December 2017  
 Final Design: January 2018 to March 2018  
 Advertise/Bid/Award: July 2018 to September 2018  
 Construction: October 2018 to March 2019

**Justification or Significance of Improvement:**  
 The project will replace obsolete traffic control equipment and allow for better monitoring and control of traffic, including special events at the proposed Canyon Springs High School stadium.

**Estimated Maintenance Costs:**  
 The budget is largely being used to replace outdated traffic control equipment and therefore should reduce ongoing maintenance costs. Maintenance of traffic control equipment is funded by the operating budget. Maintenance cost of fiber optic communication media and equipment is expected to cost \$4,000 per mile per annum. The cost to maintain CCTV cameras is projected to be \$500 per camera per annum. Currently no new funding source has been identified to fund these maintenance costs.

**Project Location Map:** Council District(s):  1  2  3  4

---	---	---

**Project Description:**  
 The City has received Highway Safety Improvement Program (HSIP) Cycle 8 funding to install high visibility crosswalk treatments at:  
 1. Sunnymead Ranch Parkway / Old Country Road  
 2. Indian Street / Manzanita Avenue  
 3. Eucalyptus Avenue / Sunnymeads Drive  
 4. Eucalyptus Avenue / Running Deer Road  
 5. Cottonwood Avenue / Jade Way  
 6. Cactus Avenue / Philo Street  
 7. John F. Kennedy Drive / Pepper Court

PE/Environmental: October 2017 to June 2018  
 Final Design: July 2018 to March 2019  
 Advertise/Bid/Award: April 2019 to June 2019  
 Construction: July 2019 to November 2019

**Project Location Map:** Council District(s):  1  2  3  4

**Justification or Significance of Improvement:** The project will improve pedestrian safety.

**Estimated Maintenance Costs:** The cost to maintain the high-visibility treatments will be absorbed by the City's signing and striping maintenance.

<p><b>Project Title:</b> Traffic Signal Coordination Program</p> <p><b>Department / Division:</b> Public Works Department / Transportation Engineering Division</p>	<p><b>Project Status:</b></p> <input type="checkbox"/> New <input checked="" type="checkbox"/> In Progress <input type="checkbox"/> Completed <input type="checkbox"/> Deleted <input type="checkbox"/> On Hold	<p><b>Project Priority in CIP Category:</b></p> <input checked="" type="checkbox"/> Essential (Start within 1 yr) <input type="checkbox"/> Necessary (Start within 1 to 3 yrs) <input type="checkbox"/> Desirable (Start within 3 to 5 yrs) <input type="checkbox"/> Deferrable (Start within 5 to 10 yrs)
<p><b>Project Description:</b>          City staff will update existing traffic signal coordination plans to support deployment of new traffic signal control equipment. Eight arterials are currently synchronized and would be updated as necessary: Frederick Street, Heacock Street, Perris Boulevard, Lasselle Street, Box Springs Road / Ironwood Avenue, Sunnymead Boulevard, Alessandro Boulevard, and Cactus Avenue. Currently, 58 signals are operating in coordination.</p> <p>Schedule: Ongoing as dictated by traffic pattern changes.</p> <p><b>Justification or Significance of Improvement:</b>          This project will optimize the performance of Moreno Valley's most heavily traveled arterials. This project pays for staff time, therefore, no additional maintenance cost.</p> <p><b>Estimated Maintenance Costs:</b>          Traffic signal maintenance is funded by the operating budget.</p>	<p><b>Project Location Map:</b></p> <p align="right">Council District(s): <input checked="" type="checkbox"/> 1 <input checked="" type="checkbox"/> 2 <input checked="" type="checkbox"/> 3 <input checked="" type="checkbox"/> 4</p> <p align="center">CITYWIDE</p>

<p><b>Project Title:</b> Traffic Signal Equipment Upgrades</p> <p><b>Department / Division:</b> Public Works Department / Transportation Engineering</p>	<p><b>Project Status:</b></p> <input type="checkbox"/> New <input checked="" type="checkbox"/> In Progress <input type="checkbox"/> Completed <input type="checkbox"/> Deleted <input type="checkbox"/> On Hold	<p><b>Project Priority in CIP Category:</b></p> <input checked="" type="checkbox"/> Essential (Start within 1 yr) <input type="checkbox"/> Necessary (Start within 1 to 3 yrs) <input type="checkbox"/> Desirable (Start within 3 to 5 yrs) <input type="checkbox"/> Deferrable (Start within 5 to 10 yrs)
<p><b>Project Description:</b> The Transportation Engineering Division will undertake traffic signal and traffic control equipment upgrades to improve safety and operations. Planned improvements include accessible pedestrian signal equipment, replacement of damaged traffic signal wiring, upgrade of older traffic signal cabinets/equipment, and installation of light emitting diode (LED) safety lighting at locations not existing or programmed.</p> <p>Schedule: Ongoing</p> <p><b>Justification or Significance of Improvement:</b> The Transportation Engineering Division routinely upgrades traffic signal equipment to maintain compliance with Federal and State Standards, to respond to requests from constituents, and ensure proper functionality of the traffic signal system.</p> <p><b>Estimated Maintenance Costs:</b> The budget is largely being used to replace outdated traffic control equipment and therefore should reduce ongoing maintenance costs. Maintenance of traffic control equipment is funded by the operating budget.</p>	<p><b>Project Location Map:</b> Council District(s): <input checked="" type="checkbox"/> 1 <input checked="" type="checkbox"/> 2 <input checked="" type="checkbox"/> 3 <input checked="" type="checkbox"/> 4</p> <p align="center">CITYWIDE</p> <p><b>CIP Category:</b></p> <input type="checkbox"/> Streets and Highways <input type="checkbox"/> Bridges <input type="checkbox"/> Buildings <input type="checkbox"/> Drainage <input type="checkbox"/> Electric Utility <input type="checkbox"/> Parks <input checked="" type="checkbox"/> Traffic Signals <input type="checkbox"/> Underground Utilities <input type="checkbox"/> Other

<p><b>Project Title:</b> Transit Signal Priority Integration Phase 1</p> <p><b>Department / Division:</b> Public Works Department / Transportation Engineering Division</p>	<p><b>Project Status:</b></p> <input checked="" type="checkbox"/> New <input type="checkbox"/> In Progress <input type="checkbox"/> Completed <input type="checkbox"/> Deleted <input type="checkbox"/> On Hold	<p><b>Project Priority in CIP Category:</b></p> <input checked="" type="checkbox"/> Essential (Start within 1 yr) <input type="checkbox"/> Necessary (Start within 1 to 3 yrs) <input type="checkbox"/> Desirable (Start within 3 to 5 yrs) <input type="checkbox"/> Deferrable (Start within 5 to 10 yrs)
<p><b>Project Description:</b> This project would fund integration of the Advanced Traffic Signal Controller (ATSC) type into the City's Transportation Management Center, which will lay the groundwork for a future transit signal priority corridor along Perris Boulevard and Alessandro Boulevard to feed the Metrolink line. The upgrade will also facilitate completion of the ITS Deployment Phase 1B project, which is designed to use the ATSC controller. The work entails software development. The unfunded portion is expected to be funded by a contribution from the Riverside Transit Agency which is currently being negotiated.</p> <p>Contract Issued: September 2017 Software Upgrade Completion: April 2018</p> <p><b>Justification or Significance of Improvement:</b> This project will improve the mobility by allowing flex ability in allocating green time on arterials with transit services.</p> <p><b>Estimated Maintenance Costs:</b> Maintenance cost related to transit priority is expected to be funded by others.</p>	<p><b>Project Location Map:</b> Council District(s): <input checked="" type="checkbox"/> 1 <input checked="" type="checkbox"/> 2 <input checked="" type="checkbox"/> 3 <input checked="" type="checkbox"/> 4</p> <p align="center">CITYWIDE</p>

<p><b>Project Title:</b> Alessandro Boulevard (Future) / Virginia Street (Future) Traffic Signal</p> <p><b>Department / Division:</b> Public Works Department / Transportation Engineering Division</p>	<p><b>Project Status:</b></p> <input checked="" type="checkbox"/> New <input type="checkbox"/> In Progress <input type="checkbox"/> Completed <input type="checkbox"/> Deleted <input type="checkbox"/> On Hold	<p><b>Project Priority in CIP Category:</b></p> <input type="checkbox"/> Essential (Start within 1 yr) <input type="checkbox"/> Necessary (Start within 1 to 3 yrs) <input type="checkbox"/> Desirable (Start within 3 to 5 yrs) <input checked="" type="checkbox"/> Deferrable (Start within 5 to 10 yrs)
<p><b>Project Description:</b> This project will signalize the intersection of Alessandro Boulevard (Future) / Virginia Street (Future). This intersection is included in the City's future traffic signal data base for signalization. Future traffic signals will be constructed at half-mile spacing.</p> <p><b>Justification or Significance of Improvement:</b> This signal will be conditioned for design and construction either by the developers or by the City as the development occurs within the vicinity of this intersection. The traffic signal will be completed using DIF funds.</p> <p><b>Estimated Maintenance Costs:</b> Annual average costs associated with traffic signal maintenance are approximately \$3,500 per traffic signal. Although actual maintenance costs may vary, this cost is based on the City's historical maintenance costs for traffic signals. Currently no new source has been identified to fund the maintenance of the new traffic signal(s) in this project.</p>	<p><b>Project Location Map:</b> Council District(s): <input type="checkbox"/> 1 <input type="checkbox"/> 2 <input checked="" type="checkbox"/> 3 <input type="checkbox"/> 4</p> <p><b>CIP Category:</b></p> <input type="checkbox"/> Streets and Highways <input type="checkbox"/> Bridges <input type="checkbox"/> Buildings <input type="checkbox"/> Drainage <input type="checkbox"/> Electric Utility <input type="checkbox"/> Parks <input checked="" type="checkbox"/> Traffic Signals <input type="checkbox"/> Underground Utilities <input type="checkbox"/> Other

<p><b>Project Title:</b> Cottonwood Avenue / Elsworth Street Traffic Signal</p> <p><b>Department / Division:</b> Public Works Department / Transportation Engineering Division</p>	<p><b>Project Status:</b></p> <p><input type="checkbox"/> New      <input type="checkbox"/> Deleted</p> <p><input type="checkbox"/> In Progress      <input checked="" type="checkbox"/> On Hold</p> <p><input type="checkbox"/> Completed</p>	<p><b>Project Priority in CIP Category:</b></p> <p><input type="checkbox"/> Essential (Start within 1 yr)</p> <p><input type="checkbox"/> Necessary (Start within 1 to 3 yrs)</p> <p><input type="checkbox"/> Desirable (Start within 3 to 5 yrs)</p> <p><input checked="" type="checkbox"/> Deferrable (Start within 5 to 10 yrs)</p>
<p><b>Project Description:</b> This project will signalize the intersection of Cottonwood Avenue and Elsworth Street.</p> <p>Design: Completed November 2008 Construction: Bidding and construction are on hold.</p> <p>This traffic signal will be constructed by development at the northeast corner of Cottonwood Avenue and Elsworth Street per condition of approval.</p> <p>This project has been deferred due to changes in traffic flow due to the economic downturn. The project will be completed using DIF or by future development.</p> <p><b>Justification or Significance of Improvement:</b> The installation of this traffic signal will remove an existing all-way stop.</p>	<p><b>Project Location Map:</b> Council District(s): <input checked="" type="checkbox"/> 1 <input type="checkbox"/> 2 <input type="checkbox"/> 3 <input type="checkbox"/> 4</p>	
<p><b>Estimated Maintenance Costs:</b> Annual average costs associated with traffic signal maintenance are approximately \$3,500 per traffic signal. Although actual maintenance costs may vary, this cost is based on the City's historical maintenance costs for traffic signals. Currently no new source has been identified to fund the maintenance of the new traffic signal(s) in this project.</p>	<p><b>CIP Category:</b></p> <p><input type="checkbox"/> Streets and Highways      <input type="checkbox"/> Drainage      <input checked="" type="checkbox"/> Traffic Signals</p> <p><input type="checkbox"/> Bridges      <input type="checkbox"/> Electric Utility      <input type="checkbox"/> Underground Utilities</p> <p><input type="checkbox"/> Buildings      <input type="checkbox"/> Parks      <input type="checkbox"/> Other</p>

<p><b>Project Title:</b> Elsworth Street / Dracaea Avenue Modern Roundabout</p> <p><b>Department / Division:</b> Public Works Department / Transportation Engineering Division</p>	<p><b>Project Status:</b></p> <input type="checkbox"/> New <input type="checkbox"/> In Progress <input type="checkbox"/> Completed <input type="checkbox"/> Deleted <input checked="" type="checkbox"/> On Hold	<p><b>Project Priority in CIP Category:</b></p> <input type="checkbox"/> Essential (Start within 1 yr) <input checked="" type="checkbox"/> Necessary (Start within 1 to 3 yrs) <input type="checkbox"/> Desirable (Start within 3 to 5 yrs) <input type="checkbox"/> Deferrable (Start within 5 to 10 yrs)
<p><b>Project Description:</b>          City staff proposes to replace an all-way stop-controlled intersection with a modern roundabout at the intersection of Elsworth Street and Dracaea Avenue. Such roundabouts, when properly applied, have major safety and mobility benefits. A before-and-after study will be conducted in order to quantify the project's performance. If successful, City staff intends to install more roundabouts at appropriate locations. This project would fund planning, design, and construction of the roundabout. Due to the nature of the work, a significant outlay has been programmed to properly plan and design the work, to maximize the probability of success. In addition, community outreach meetings will be held to explain the proposal and its benefits to the local neighborhood.</p> <p>This project has been delayed due to lack of funding and was previously funded under DIF Traffic Signals.</p> <p><b>Justification or Significance of Improvement:</b>          This project is part of a study to determine the effectiveness of the roundabout configuration.</p> <p><b>Estimated Maintenance Costs:</b>          Street maintenance costs over a 20 year period are estimated to average almost \$12,000 per 13 foot wide lane mile per year. Currently no new funding source has been identified to fund these maintenance costs.</p>	<p><b>Project Location Map:</b> Council District(s): <input checked="" type="checkbox"/> 1 <input type="checkbox"/> 2 <input type="checkbox"/> 3 <input type="checkbox"/> 4</p> <p><b>CIP Category:</b></p> <input type="checkbox"/> Streets and Highways <input type="checkbox"/> Bridges <input type="checkbox"/> Buildings <input type="checkbox"/> Drainage <input type="checkbox"/> Electric Utility <input type="checkbox"/> Parks <input checked="" type="checkbox"/> Traffic Signals <input type="checkbox"/> Underground Utilities <input type="checkbox"/> Other

**Project Description:**  
This project will signalize the intersection of Eucalyptus Avenue / Indian Street. This intersection is included in the City's future traffic signal data base for signalization. Future traffic signals will be constructed at half-mile spacing.

**Justification or Significance of Improvement:**  
This signal will be conditioned for design and construction either by the developers or by the City as the development occurs within the vicinity of this intersection. The traffic signal will be completed using DIF funds.

**Estimated Maintenance Costs:**  
Annual average costs associated with traffic signal maintenance are approximately \$3,500 per traffic signal. Although actual maintenance costs may vary, this cost is based on the City's historical maintenance costs for traffic signals. Currently no new source has been identified to fund the maintenance of the new traffic signal(s) in this project.

**Project Description:**  
 This project will signalize the intersection of Eucalyptus Avenue (Future) / Gilman Springs Road. This intersection is included in the City's future traffic signal data base for signalization. Future traffic signals will be constructed at half-mile spacing.

**Justification or Significance of Improvement:**  
 This signal will be conditioned for design and construction either by the developers or by the City as the development occurs within the vicinity of this intersection. The traffic signal will be completed using DIF funds.

**Estimated Maintenance Costs:**  
 Annual average costs associated with traffic signal maintenance are approximately \$3,500 per traffic signal. Although actual maintenance costs may vary, this cost is based on the City's historical maintenance costs for traffic signals. Currently no new source has been identified to fund the maintenance of the new traffic signal(s) in this project.

<b>Project Title:</b> Ironwood Avenue / Avocado Lane Traffic Signal	<b>Project Status:</b> <input checked="" type="checkbox"/> New <input type="checkbox"/> In Progress <input type="checkbox"/> Completed <input type="checkbox"/> Deleted <input type="checkbox"/> On Hold	<b>Project Priority in CIP Category:</b> <input type="checkbox"/> Essential (Start within 1 yr) <input type="checkbox"/> Necessary (Start within 1 to 3 yrs) <input type="checkbox"/> Desirable (Start within 3 to 5 yrs) <input checked="" type="checkbox"/> Deferrable (Start within 5 to 10 yrs)
<b>Department / Division:</b> Public Works Department / Transportation Engineering Division		

**Project Description:**  
This project will signalize the intersection of Ironwood Avenue / Avocado Lane (or other nearby suitable intersection). This intersection is included in the City's future traffic signal data base for signalization. Future traffic signals will be constructed at half-mile spacing.

**Justification or Significance of Improvement:**  
This signal will be conditioned for design and construction either by the developers or by the City as the development occurs within the vicinity of this intersection. The traffic signal will be completed using DIF funds. A traffic signal in the vicinity of Ironwood Avenue / Avocado Lane was identified as desirable during the preparation of an environmental document for the widening of Ironwood Avenue. Signalization would occur at such time as the need arises, and or in conjunction with road widening.

**Estimated Maintenance Costs:**  
Annual average costs associated with traffic signal maintenance are approximately \$3,500 per traffic signal. Although actual maintenance costs may vary, this cost is based on the City's historical maintenance costs for traffic signals. Currently no new source has been identified to fund the maintenance of the new traffic signal(s) in this project.

**Project Location Map:** Council District(s):  1  2  3  4

**CIP Category:**  
 Streets and Highways  
 Bridges  
 Buildings  
 Drainage  
 Electric Utility  
 Parks  
 Traffic Signals  
 Underground Utilities

<p><b>Project Title:</b> Kitching Street / Globe Street Traffic Signal</p> <p><b>Department / Division:</b> Public Works Department / Transportation Engineering Division</p> <p><b>Project Description:</b> This project will signalize the intersection of Kitching Street / Globe Street. This intersection is included in the City's future traffic signal data base for signalization. The signalization would occur in conjunction with construction of a bridge over the storm drain channel to the south, connecting Kitching Street with Redlands Avenue in Perris.</p> <p><b>Justification or Significance of Improvement:</b> This signal will be conditioned for design and construction either by the developers or by the City as the development occurs within the vicinity of this intersection. The traffic signal will be completed using DIF funds.</p> <p><b>Estimated Maintenance Costs:</b> Annual average costs associated with traffic signal maintenance are approximately \$3,500 per traffic signal. Although actual maintenance costs may vary, this cost is based on the City's historical maintenance costs for traffic signals. Currently no new source has been identified to fund the maintenance of the new traffic signal(s) in this project.</p>	<p><b>Project Status:</b></p> <p><input checked="" type="checkbox"/> New <input type="checkbox"/> In Progress <input type="checkbox"/> Completed</p> <p><input type="checkbox"/> Deleted <input type="checkbox"/> On Hold</p>	<p><b>Project Priority in CIP Category:</b></p> <p><input type="checkbox"/> Essential (Start within 1 yr) <input type="checkbox"/> Necessary (Start within 1 to 3 yrs) <input type="checkbox"/> Desirable (Start within 3 to 5 yrs) <input checked="" type="checkbox"/> Deferrable (Start within 5 to 10 yrs)</p>

**Project Description:**  
This project will signalize the intersection of Sunnymead Boulevard / Kitching Street. This intersection is included in the City's future traffic signal data base for signalization. Future traffic signals will be constructed at half-mile spacing.

**Justification or Significance of Improvement:**  
This signal will be conditioned for design and construction either by the developers or by the City as the development occurs within the vicinity of this intersection. The traffic signal will be completed using DIF funds.

**Estimated Maintenance Costs:**  
Annual average costs associated with traffic signal maintenance are approximately \$3,500 per traffic signal. Although actual maintenance costs may vary, this cost is based on the City's historical maintenance costs for traffic signals. Currently no new source has been identified to fund the maintenance of the new traffic signal(s) in this project.

**CITY OF MORENO VALLEY**  
**Capital Improvement Plan - Project Details**  
**FY 2017-2022 and Beyond**

<p><b>Project Title:</b> Citywide Fiber Optic Communications Expansion</p> <p><b>Department / Division:</b> City Manager's Office / Technology Services Division</p>	<p><b>Project Status:</b></p> <input type="checkbox"/> New <input checked="" type="checkbox"/> In Progress <input type="checkbox"/> Completed <input type="checkbox"/> Deleted <input type="checkbox"/> On Hold	<p><b>Project Priority in CIP Category:</b></p> <input checked="" type="checkbox"/> Essential (Start within 1 yr) <input type="checkbox"/> Necessary (Start within 1 to 3 yrs) <input type="checkbox"/> Desirable (Start within 3 to 5 yrs) <input type="checkbox"/> Deferrable (Start within 5 to 10 yrs)
<p><b>Project Description:</b>          Funding for this project will be used to extend fiber optic communications Citywide, allowing high speed cost-effective network connectivity between City Hall and remote City locations. Connectivity to the MVU substation is currently provided over a DSL line with no backup communications provided. This will establish the MVU location as a third fiber hub site for future fiber extensions to the east end of Moreno Valley. Use of the new fiber backbone between City Hall to the Corporate Yard and MVU Substation will facilitate additional fiber communications to other City facilities, including use for traffic signal controls, traffic cameras, public safety, video surveillance, SCADA systems, and irrigation control systems. New request will be funded by MVU Fund 6011.</p> <p>Construction: July 2016 to May 2018</p> <p><b>Justification or Significance of Improvement:</b>          The MVU Electric Utility is an essential services location that should have the maximum gigabit communications bandwidth capacity allowed by fiber optic cable. Having a high speed backbone over fiber opens the opportunity for a third fiber communications hub at an essential services site. Use of the City's own fiber optic communications will save the City money by not having to lease expensive gigabit circuits from the local phone company.</p> <p><b>Estimated Maintenance Costs:</b>          Annual operating cost is zero. This underground facility provides annual cost savings of \$1,700.00. Additionally, as fiber circuits are activated cost savings increase annually.</p>	<p><b>Project Location Map:</b> Council District(s): <input type="checkbox"/> 1 <input type="checkbox"/> 2 <input checked="" type="checkbox"/> 3 <input checked="" type="checkbox"/> 4</p> <p><b>CIP Category:</b></p> <input type="checkbox"/> Streets and Highways <input type="checkbox"/> Bridges <input type="checkbox"/> Buildings <input type="checkbox"/> Drainage <input type="checkbox"/> Electric Utility <input type="checkbox"/> Parks <input type="checkbox"/> Traffic Signals <input checked="" type="checkbox"/> Underground Utilities <input type="checkbox"/> Other

<p><b>Project Title:</b> Nason Street / Dracaea Avenue Booster Pump Relocation</p> <p><b>Department / Division:</b> Public Works Department / Capital Projects Division</p>	<p><b>Project Status:</b></p> <input type="checkbox"/> New <input type="checkbox"/> In Progress <input type="checkbox"/> Completed <input type="checkbox"/> Deleted <input checked="" type="checkbox"/> On Hold	<p><b>Project Priority in CIP Category:</b></p> <input type="checkbox"/> Essential (Start within 1 yr) <input checked="" type="checkbox"/> Necessary (Start within 1 to 3 yrs) <input type="checkbox"/> Desirable (Start within 3 to 5 yrs) <input type="checkbox"/> Deferrable (Start within 5 to 10 yrs)
<p><b>Project Description:</b>          This project relocated the existing booster pump station at the northwest corner of Nason Street and Dracaea Avenue. As part of the Nason Street / Cactus Avenue to Fir Avenue project, Nason Street was widened to its ultimate buildout geometry. Concurrently, Eastern Municipal Water District (EMWD) relocated their booster pump station. The City and EMWD have entered into a Memorandum of Understanding that EMWD would oversee the design and construction of the booster pump station relocation and the City would be responsible for up to \$2 million paid from the Development Impact Fee Arterial Streets (DIF) fund, as funds become available. Approximately \$40,000 of permit credits are anticipated to be collected by June 2017. Actual future amounts collected are dependent on annual DIF revenues.</p> <p>Construction: Relocation Completed November 2015</p>	<p><b>Project Location Map:</b> Council District(s): <input type="checkbox"/> 1 <input type="checkbox"/> 2 <input checked="" type="checkbox"/> 3 <input type="checkbox"/> 4</p>	
<p><b>Justification or Significance of Improvement:</b>          This project relocated the EMWD booster pump station, which allowed for street improvements to be constructed to ultimate buildout geometry per the City Circulation Plan (Adopted by City Council).</p>	<p><b>CIP Category:</b></p> <input type="checkbox"/> Streets and Highways <input type="checkbox"/> Bridges <input type="checkbox"/> Buildings <input type="checkbox"/> Drainage <input type="checkbox"/> Electric Utility <input type="checkbox"/> Parks <input type="checkbox"/> Traffic Signals <input checked="" type="checkbox"/> Underground Utilities <input type="checkbox"/> Other	
<p><b>Estimated Maintenance Costs:</b>          EMWD is responsible for all booster pump station maintenance costs.</p>

Capital Improvement Plan  
FY 2017-2022 and Beyond

**CITY OF MORENO VALLEY  
Capital Improvement Plan - Project Details  
FY 2017-2022 and Beyond**

<p><b>Project Title:</b> Citywide Camera Surveillance System</p> <p><b>Department / Division:</b> City Manager's Office / Technology Services Division</p>	<p><b>Project Status:</b></p> <input type="checkbox"/> New <input checked="" type="checkbox"/> In Progress <input type="checkbox"/> Completed <input type="checkbox"/> Deleted <input type="checkbox"/> On Hold	<p><b>Project Priority in CIP Category:</b></p> <input checked="" type="checkbox"/> Essential (Start within 1 yr) <input type="checkbox"/> Necessary (Start within 1 to 3 yrs) <input type="checkbox"/> Desirable (Start within 3 to 5 yrs) <input type="checkbox"/> Deferrable (Start within 5 to 10 yrs)
<p><b>Project Description:</b>          The initial Citywide Camera System (CCS), which comprised 216 cameras at approximately 67 intersections or park locations throughout the City, has grown to 360 cameras and is considered an invaluable tool by several City departments. The CCS will be enhanced with ~76 cameras in response to requests from three departments. The Police Department is using asset forfeiture funding to add cameras at seven key intersections. The Facilities Division is replacing outdated cameras at City Hall, the Animal Shelter, and the Conference and Recreation Center. The Moreno Valley Utility (MVU) is replacing outdated cameras at the Moreno Beach substation. Cameras purchased by Facilities and MVU will bring areas into the Citywide Camera System which had previously operated independently.          Design: January 2017 to February 2017          Construction: March 2017 to December 2017</p> <p><b>Justification or Significance of Improvement:</b>          The Moreno Valley Police Department has identified a CCS as a way to enhance public safety without adding police officers. The CCS will augment the response capabilities of the on-duty patrol officers and aid law enforcement in their efforts to prevent and combat crime in the community. Other departments also use the CCS for operational responsibilities because it achieves results faster and less expensively than traditional methods.</p> <p><b>Estimated Maintenance Costs:</b>          A third party is contracted to provide maintenance to the system; the cost for the maintenance is approximately \$145,000 per year. This expansion is expected to increase these costs in future years by approximately \$25,000.</p>	<p><b>Project Location Map:</b> Council District(s): <input checked="" type="checkbox"/> 1 <input checked="" type="checkbox"/> 2 <input checked="" type="checkbox"/> 3 <input checked="" type="checkbox"/> 4</p> <p align="center">CITYWIDE</p> <p><b>CIP Category:</b></p> <input type="checkbox"/> Streets and Highways <input type="checkbox"/> Bridges <input type="checkbox"/> Buildings <input type="checkbox"/> Drainage <input type="checkbox"/> Electric Utility <input type="checkbox"/> Parks <input type="checkbox"/> Traffic Signals <input type="checkbox"/> Underground Utilities <input checked="" type="checkbox"/> Other

## **Glossary of Acronyms**

---

ADA	Americans with Disabilities Act
ADP	Area Drainage Plan
APN	Assessor's Parcel Number
ATP	Active Transportation Program
BSMWC	Box Springs Mutual Water Company
CAMUTCD	California Manual on Uniform Traffic Control Devices
CCI	Construction Cost Index
CCTV	Closed Circuit Television
CDBG	Community Development Block Grant
CIP	Capital Improvement Plan
CMAQ	Congestion, Mitigation and Air Quality
COPS	Certificates of Participation
CPI	Consumer Price Index
CPSC	Consumer Product Safety Commission
DIF	Development Impact Fee
DMS	Dynamic Message Signs
EIR	Environmental Impact Report
DSL	Digital Subscriber Line
EMWD	Eastern Municipal Water District
ENR	Engineering News Record
EV	Electric Vehicle
EVP	Emergency Vehicle Pre-Emption
FHWA	Federal Highway Administration
FTIP	Federal Transportation Improvement Program
FY	Fiscal Year
GASB	Governmental Accounting Standards Board
HLFV	Highland Fairview
HMGP	Highway Mitigation Grant Program
HSIP	Highway Safety Improvement Program
HUD	Housing and Urban Development
ITS	Intelligent Transportation System
JPA	Joint Power Authority
LED	Light Emitting Diode
LRB	Lease Revenue Bond
MARA	Measure A Regional Arterial
MARB	March Air Reserve Base
MDP	Master Drainage Plan
MSRC	Mobile Source Air Pollution Reduction Review Committee
MVU	Moreno Valley Utility
MVUSD	Moreno Valley Unified School District
PA&ED	Planning Approvals and Environmental Documents
PDS	Project Delivery Support
PS&E	Plans, Specifications, and Estimates
PSR	Project Study Report
PVSD	Perris Valley Storm Drain
RCFC&WCD	Riverside County Flood Control and Water Conservation District

RCRMC	Riverside County Regional Medical Center
RCTC	Riverside County Transportation Commission
ROW	Right of Way
SB	Senate Bill
SCADA	Supervisory Control and Data Acquisition
SCAG	Southern California Association of Governments
SCE	Southern California Edison
SLPP	State Local Partnership Program
SR2S	Safe Routes to School (State of California)

TIP	Transportation Improvement Program
TRIP	Total Road Improvement Program
TUMF	Transportation Uniform Mitigation Fee
WRCOG	Western Regional Council of Governments

## **Glossary of Funds**

---

**1010 General Fund**

The General Fund is used to account for all revenues not specifically levied or collected for a dedicated purpose and for expenditures related to general City operations and activities.

**2000 Gas Tax Fund**

The Gas Tax Fund is used to account for the City's share of state gas tax revenue restricted for street improvement and maintenance. The revenue is apportioned under the State of California Streets and Highway Code based on relative percentage share of the California population. In addition, each city with a population of 100,000 to 500,000 receives \$10,000 in the month of July to be used exclusively for the purpose of engineering costs and administrative expenses in respect to city streets. It is generally an operating fund subsidized by the General Fund.

**2001 Measure A Fund**

The Measure A Fund is used to account for the receipt and disbursement of the City's share of the countywide half-cent sales tax, specifically allocated for transit-related projects pursuant to a measure passed by the Riverside County voters. Measure A has been a major source of funding for the City's transportation infrastructure improvements. However, the operating budgets and annual debt service obligations in the Measure A Fund eliminate the availability of this revenue source for construction of new CIP projects in future years.

**2005 Air Quality Management Fund**

The Air Quality Management Fund is used to account for the City's share of the State AB 2766 funds. The revenue is apportioned to cities by the South Coast Air Quality Management District (SCAG) and is restricted for programs to reduce air pollution from mobile sources pursuant to the California Clean Air Act of 1988.

**2301 Capital Projects Grants Fund**

The Capital Projects Grants fund is used to account for the receipt and disbursement of allocated federal, state, and local grants for Capital Improvement Plan projects.

**2512 Community Development Block Grant (CDBG) Fund**

The CDBG Fund is used to account for the administration of CDBG funds received from the Department of Housing and Urban Development (HUD) that provide funding of Fair Housing Counseling/Tenant Mediation, Code Enforcement services, and funding of certain capital projects.

**2800 Southern California Association of Governments (SCAG) Article 3 Fund**

The SCAG Article 3 Fund is used to account for the receipt and disbursement of allocated Senate Bill (SB) 821 grant awards restricted for the construction of pedestrian and bikeway projects.

- 2901 Development Impact Fees (DIF) Revenue Fund - Arterial Streets**  
The Arterial Streets DIF Revenue Fund is used to account for the restricted fees collected to provide funding for arterial street capital improvements related to the impact of development on various City services.
- 2902 Development Impact Fees (DIF) Revenue Fund - Traffic Signals**  
The Traffic Signals DIF Revenue Fund is used to account for the restricted fees collected to provide funding for traffic signal capital improvements related to the impact of development on various City services.
- 2903 Development Impact Fees (DIF) Revenue Fund – Fire**  
The Fire DIF Revenue Fund is used to account for the restricted fees collected to provide funding for fire capital improvements related to the impact of development on various City services.
- 2905 Development Impact Fees (DIF) Revenue Fund - Parkland Facilities**  
The Parkland Facilities DIF Revenue Fund is used to account for parks acquisition and development projects funded by revenues received from developers on a dwelling unit basis in accordance with the Quimby Act, a 1965 provision in the State Subdivision Map Act for the dedication of park land.
- 2906 Development Impact Fees (DIF) Revenue Fund - Quimby-In-Lieu Park Fees**  
The Quimby In-Lieu Park Fees Revenue Fund is used to account for the collection and transfer of fees in lieu of park land dedication for the purpose of developing new or rehabilitating existing neighborhood parks, community parks, or recreational facilities to serve the subdivision paying the fees.
- 2910 Development Impact Fees (DIF) Revenue Fund - Corporate Yard**  
The Corporate Yard DIF Revenue Fund is used to account for the restricted fees collected to provide funding for Corporate Yard improvements related to the impact of development on various City services.
- 2911 Development Impact Fees (DIF) Revenue Fund - Interchange Improvements**  
The Interchange Improvements DIF Revenue Fund is used to account for the restricted fees collected to provide funding for interchange improvements related to the impact of development on various City services.
- 3000 Facility Construction Fund**  
The General City Capital Projects Construction Fund is used to account for projects primarily funded by the General Fund and that are not specifically funded within a particular capital project fund.
- 3002 Public Works General Capital Projects Fund**  
The Public Works General Capital Projects Fund is used to account for all costs associated with cooperative agreements and reimbursement agreements.

- 3003 Transportation Uniform Mitigation Fee (TUMF) Capital Projects Fund**  
The TUMF Capital Projects Fund is used to account for the mandatory development impact fee program in Western Riverside County designed to pay for road facilities that are needed to serve new developments. This program, enacted by a two-thirds majority of voters in 2002 was designed to pay for major roads and interchange projects that are needed to serve communities as a result of new development. The Western Riverside Council of Governments (WRCOG) administers the program.
- 3005 Fire Services Capital Projects Fund**  
The Fire Services Capital Projects Fund is used to account for capital projects specific to fire services.
- 3006 Parks & Recreation Capital Projects Fund**  
The Parks & Recreation Capital Projects Fund is used to account for general parks and recreation capital projects, the development of new parks and recreation facilities, community parks, neighborhood parks and sports facilities, and for the major renovation of existing parks and facilities.
- 3008 Capital Projects Reimbursements Fund**  
The Capital Projects Reimbursements Fund is used to account for the receipt and disbursement of allocated federal and local reimbursements for the SR-60/Nason Overcrossing Bridge and SR-60/Moreno Beach Phase 1 projects.
- 3301 Development Impact Fees (DIF) Arterial Streets Capital Projects Fund**  
The DIF Arterial Streets Capital Projects Fund is used to account for construction of arterial streets projects funded by the development impact fee revenues charged to developers.
- 3302 Development Impact Fees (DIF) Traffic Signals Capital Projects Fund**  
The DIF Traffic Signals Capital Projects Fund is used to account for construction of traffic signals funded by the development impact fees charged to developers.
- 3311 Development Impact Fees (DIF) Interchange Improvements Capital Projects Fund**  
The DIF Interchange Improvements Capital Projects Fund is used to account for construction of interchanges funded by the development impact fees charged to developers.
- 3411 Total Road Improvement Program (T.R.I.P.) Capital Projects Fund**  
The T.R.I.P Capital Projects Fund is used to account for the construction costs of projects funded by the T.R.I.P. Certificates of Participation (COPS), Series 2013A
- 5211 Zone A Parks - Restricted Assets**  
The Zone A Parks – Restricted Assets Fund is used to administer the Parks and Community Services department assets.

**7220 Technology Services Asset Fund**

The Technology Services Asset Fund is used to account for the operations and capital projects relative to the maintenance, security, and support of the City's information systems backbone including computer, radio, and telephone systems.

**UNF Unfunded Projects**

Unfunded Projects are programmed projects for future years that do not yet have a specific funding source identified.

## **Glossary of Terms**

---

### **Accounting**

The systematic and comprehensive process of identifying, recording, measuring, classifying, verifying, summarizing, interpreting, and communicating financial information. It includes not only the maintenance of accounting records, but also the preparation of financial and economic information relating to the organization. Accounting also provides information regarding available resources, the means employed to finance those resources, and the results achieved through their use.

### **Accrual Basis of Accounting**

The basis of accounting by which revenues are recorded when earned and expenditures are recorded when the liability is incurred.

### **Allocation**

The portion of a budget apportioned to a division or department within an organization.

### **Appropriation**

A specific amount of money authorized by the City Council for an approved work program or individual project.

### **Asset**

An economic resource that is owned or controlled to produce value. Capital projects are tangible assets that have a physical substance.

### **Balanced Budget**

A budget in which planned expenditures do not exceed planned funds available.

### **Basis of Budgeting**

Budgets are adopted on a basis consistent with accounting principles generally accepted in the United States of America. Annual appropriated CIP project budgets are adopted for all departments within the general, special revenue, and capital projects funds.

### **Beginning/Ending Fund Balance**

Unencumbered resources available in a fund from the prior/current year after payment of the prior/current year expenses.

### **Bond**

A certificate of debt issued by an entity, guaranteeing payment of the original investment, plus interest, by a specified future date.

### **Budget**

An annual financial plan that identifies revenues, types and levels of services to be provided, and the amount of funds that can be spent.

**Budget Calendar**

The schedule of key dates or milestones which the City follows in the preparation and adoption of the budget.

**Build-Out**

An urban planner's estimate of the amount and location of potential development for an area. An area that has been developed to the maximum extent possible or allowable by law.

**Capital Expenditures**

Expenditures are usually related to major construction projects such as roads, buildings, and parks. These expenditures are typically capitalized and depreciated over time.

**Capital Improvement Plan**

A multi-year financial plan which identifies proposed construction of physical assets, such as park, street, cultural, and recreational facilities, and provides a planning schedule and identifies options for financing the plan.

**Capital Project**

A project that helps maintain or improve a City asset, often called infrastructure. CIP projects are any major projects requiring the expenditure of public funds (over and above operation expenditures) for the purchase, construction, or replacement of the physical assets of the community. Long-term investment requiring relatively large sums to acquire, develop, improve, and/or maintain a capital asset (such as land, buildings, roads, technology infrastructure).

**Contingency**

An appropriation of funds to cover unforeseen events that occur during the fiscal year, such as federal mandates, shortfalls in revenue, construction costs, and similar eventualities.

**Contract**

A written agreement, enforceable by law, between two or more people or entities.

**Department**

An organizational unit comprised of programs or divisions. Examples include the Public Works Department, Parks and Community Services Department, and Finance Department.

**Encumbrance**

A legal obligation to expend funds for an expenditure that has not yet occurred. Encumbrances restrict a portion of the applicable appropriation for a specific purchase.

**Engineering**

The branch of science and technology concerned with the design, building, and use of structures, engines, and machines.

**Expenditure**

The actual spending of funds for identified goods and services that decreases net spendable resources and are authorized by appropriations.

**Fee**

A general term used for any charge levied by government for providing a service or performing an activity.

**Fiscal Year**

A twelve-month period of time designated as the budget year. The City of Moreno Valley's fiscal year is July 1 to June 30.

**Fund**

A self-balancing group of accounts recording cash and other financial resources, as well as related liabilities and residual equity. Funds are segregated to carry on specific activities or objectives in accordance with special regulations, restrictions or limitations as established by the State and Federal governments.

**Fund Balance**

Fund Balance reflects the difference between revenues and expenditures, as well as interfund transfers within an adopted fund. Beginning Fund balance is the accumulation of previous year's differences.

**General Plan**

The City's General Plan provides a guide to growth and land development in the community for both the current period and the long term. The General Plan is the foundation for establishing goals, purposes, zoning and activities allowed on each land parcel to provide compatibility and continuity to the entire community as well as each individual neighborhood.

**Generally Accepted Accounting Principles (GAAP)**

Uniform minimum standards and guidelines for accounting and reporting that have been established by the accounting profession through the Governmental Accounting Standards Board (GASB).

**Governmental Accounting Standards Board (GASB)**

The Governmental Accounting Standards Board (GASB) was organized in 1984 by the Financial Accounting Foundation (FAF) to establish standards of financial accounting and reporting for state and local governmental entities. Its standards guide the preparation of external financial reports of those entities.

**Grant**

Contributions of cash or other assets from another governmental agency or other organization to be used or expended for a specific purpose, activity, or facility.

**Infrastructure**

Facilities that support the daily life and growth of the City. The basic equipment and structures needed for an organization to function properly.

**Internal Control**

A system of checks and balances, including a separation of duties, to ensure accountability standards. An accounting procedure or system designed to promote efficiency, implement a policy, safeguard assets or avoid fraud and error, etc.

**Operating Budget**

The annual appropriation of funds for on-going costs, which include salaries, benefits, maintenance, operation, and capital outlay items.

**Pay-As-You-Go**

The practice of funding expenditures with current funds rather than borrowing.

**Program**

Represents major areas or support functions defined as a service provided to citizens, other departments, or other agencies.

**Projection**

Represents the most recent estimate for current year revenue and expenditures. Projections are based upon several months of actual expenditure and revenue and consider the impact of unanticipated price or other economic factors.

**Proposed Budget**

A balanced budget presented to the City Council by the City Manager. Any City Council changes to the proposed budget are incorporated into the final adopted budget.

**Revenue**

Funds received from the collection of taxes, fees, permits, licenses, interest, and grants during the fiscal year.

**Schedule**

A summary of expenditures, revenues, positions, or other data that reflects funding sources and spending plans of the budget and capital improvement programs.

**Transfers**

Authorized exchanges of money, positions, or other resources between organizational units or funds.

**FISCAL YEARS**  
2017/18 & 2018/19
